

Read the most-cited and most-downloaded articles published in [\*\*International Journal of Phytoremediation\*\*](#) free!

*International Journal of Phytoremediation* has a 2007 Impact Factor of 1.489!

(© 2008 Thomson Reuters, Journal Citation Reports®)

*International Journal of Phytoremediation* is the official journal of the [Association of Environmental Health and Sciences](#) and the [International Phytotechnology Society](#).

### Most-Cited Articles Published in *International Journal of Phytoremediation* 2003-2007

1. E. Meers, M. Hoggood, E. Lesage, et al., [\*Enhanced Phytoextraction: In Search of EDTA Alternatives\*](#) Volume 6, Issue 2, pp. 95-109
2. A. Salido, K. Hasty, J. Lim, et al., [\*Phytoremediation of Arsenic and Lead in Contaminated Soil Using Chinese Brake Ferns \(\*Pteris vittata\*\) and Indian Mustard \(\*Brassica juncea\*\)\*](#) Volume 5, Issue 2, pp. 89-103
3. Z. Parrish, M. Banks, A. Schwab, [\*Effectiveness of Phytoremediation As a Secondary Treatment for Polycyclic Aromatic Hydrocarbons \(PAHs\) in Composted Soil\*](#) Volume 6, Issue 2, pp. 119-137

See the full list [here](#).

### Most-Downloaded Articles *International Journal of Phytoremediation*, 2007

1. R. Brandt, N. Merkl, R. Schultze-Kraft, et al., [\*Potential of Vetiver \(\*Vetiveria zizanioides\* \(L.\) Nash\) for Phytoremediation of Petroleum Hydrocarbon-Contaminated Soils in Venezuela\*](#) Volume 8, Issue 4, pp. 273-284
2. G. Kertulis-Tartar, L. Ma, C. Tu, et al., [\*Phytoremediation of an Arsenic-Contaminated Site Using \*Pteris vittata\* L.: A Two-Year Study\*](#) Volume 8, Issue 4, pp. 311-322
3. W. Abouddrar, C. Schwartz, E. Benizri, et al., [\*Soil Microbial Diversity as Affected by the Rhizosphere of the Hyperaccumulator \*Thlaspi Caerulescens\* Under Natural Conditions\*](#) Volume 9, Issue 1, pp. 41-52

See the full list [here](#).
