

Read the most-cited articles published in *Materials and Manufacturing Processes* free!

Materials and Manufacturing Processes provides information on better utilization of raw materials and energy, introduction of new materials in industrial production necessitating new manufacturing process technology, and more. The journal includes research articles, letter reports, review articles, conference papers, applied research, book and conference reviews, patent reports, and entire issues devoted to symposia.

Top 10 Most-Cited Articles from *Materials and Manufacturing Processes*, 2003-2007

1. Z.W. Zhong, W.H. Tok, *Grinding of single-crystal silicon along crystallographic directions* Volume 18, Issue 5, pp. 811-824
2. N. Chakraborti, A. Kumar, *The optimal scheduling of a reversing strip mill: Studies using multipopulation genetic algorithms and differential evolution* Volume 18, Issue 3, pp. 433-445
3. I.N. Egorov-Yegorov, G.S. Dulikravich, *Chemical composition design of superalloys for maximum stress, temperature, and time-to-rupture using self-adapting response surface optimization* Volume 20, Issue 3, pp. 569-590
4. P.P. Sengupta, S. Barik, B. Adhikari, *Polyaniline as a gas-sensor material* Volume 21, Issue 3, pp. 263-270
5. R. Nandan, R. Rai, R. Jayakanth, et al., *Regulating crown and flatness during hot rolling: A multiobjective optimization study using genetic algorithms* Volume 20, Issue 3, pp. 459-478
6. M. Mahfouf, M. Jamei, D.A. Linkens, *Optimal design of alloy steels using multiobjective genetic algorithms* Volume 20, Issue 3, pp. 553-567
7. Z.W. Zhong, H.B. Yang, *Development of a vibration device for grinding with microvibration* Volume 19, Issue 6, pp. 1121-1132
8. T. Oku, I. Narita, A. Nishiwaki, *Synthesis, atomic structures, and electronic states of boron nitride nanocage clusters and nanotubes* Volume 19, Issue 6, pp. 1215-1239
9. C.L. Lin, *Use of the Taguchi method and grey relational analysis to optimize turning operations with multiple performance characteristics* Volume 19, Issue 2, pp. 209-220
10. X. Cao, W. Wallace, C. Poon, et al., *Research and progress in laser welding of wrought aluminum alloys. I. Laser welding processes* Volume 18, Issue 1, pp. 1-22
