Perspective

Separating Variability and Uncertainty in Environmental Risk Assessment—Making Choices <i>By Elizabeth J. Kelly and Katherine Campbel</i>	1
--	---

Regular Papers

Evaluating Effects of Contaminants on Fish Health at Multiple Levels of Biological Organization: Extrapolating from Lower to Higher Levels <i>By S. Marshall Adams, M. S. Greeley, Jr., and M. G. Ryon</i>	15
Marine Mammals as Sentinels in Ecological Risk Assessment <i>By Peter S. Ross</i>	29
The Federal Government's Agricultural Health Study: A Critical Review with Suggested Improvements <i>By George M. Gray, Bernard D. Goldstein, John Bailar, Devra Lee Davis, Elizabeth Delzell, Frank Dost, Raymond S. Greenberg, Maureen Hatch, Ernest Hodgson, Michael A. Ibrahim, James Lamb, Terry Lavy, Jack Mandel, Richard Monson, Mark Robson, Roy Shore, and John D. Graham</i>	47
Comparative Aspects of Estrogen Functions and Measurements in Oviparous and Viviparous Vertebrates <i>By Anne Fairbrother</i>	73
A Probabilistic Analysis of Regional Mercury Impacts on Wildlife <i>By Kristen Lohman, Prasad Pai, Christian Seigneur, David Mitchell, Ken Helm, Kristen Wandland, and Leonard Levin</i>	103
Deviation of Risk Management Criteria for Chemicals of Unknown Toxic Potency at Contaminated Sites <i>By R. M. Wilson, E. A. Sigal, C. M. Bacigalupo, R. F. Willes, and I. C. Munro</i>	131

A Probabilistic Ecological Risk Assessment of Tributyltin in Surface Waters 141
of the Chesapeake Bay Watershed
By Leonwood W. Hall, Jr., Mark C. Scott, William D. Killen, and Michael A. Unger

Toxicity Reference Values for the Toxic Effects of Polychlorinated Biphenyls 181
to Aquatic Mammals
By K. Kannan, A. L. Blankenship, P. D. Jones, and J. P. Giesy

Letter to the Editor

Egg Selenium Thresholds for Birds: A Response to J. Skorupa's Critique 203
of Fairbrother *et al.*, 1999
By A. Fairbrother, K. V. Brix, D. K. DeForest, and W. J. Adams

TABLE OF CONTENTS *Journal of Human and Ecological Risk Assessment* **Volume 6, No. 2, April 2000**

Perspective

The Ridiculous Notion of Assessing Ecological Health and Identifying the Useful 213
Concepts Underneath
By Jill Lancaster

Debate & Commentary

Hormesis in Ecology and Ecological Assessments 223
By John H. Gentile

Hormesis and Ecological Risk Assessment: Fact or Fantasy? 227
By John H. Gentile and William H. van der Schalie

Are Ecosystems Hormetic? 237
By Steven M. Bartell

Special Section

Chairman's Personal Perspective 245
By Paul F. Deisler, Jr

Why the Concept of Hormesis Has Not Been Incorporated into Mainstream Radiation 249
Health Theory: Radiation Perspective
By Arthur C. Upton

Dietary Restriction and Longevity Extension as a Manifestation of Hormesis 273
By Edward J. Masoro

The Current Status of the Adaptive Response to Ionizing Radiation in Mammalian Cells 281
By Andrzej Wojcik and Jeff D. Shadley

Maia Hypothesis – Growth Control and Toxicology 301
By A. R. D. Stebbing

Regular Papers

Removal of Soluble Cu and Pb by the Automatic Drip Coffee Brewing 313
Process: Application to Risk Assessment

By Christopher A. Impellitteri, Herbert E. Allen, Gustavo Lagos, and Michael J. McLaughlin

A Pooled Analysis of the Iraqi and Seychelles Methylmercury Studies 323
By Clark D. Carrington and P. Michael Bolger

Need to Determine the Relative Development Risks of *Fusarium* Mycotoxin 341
Dexonivalenol (DON) and Benomyl (BEN) in Wheat
By L. R. Hicks, D. R. Brown, R. H. Storch, and R. J. Bushway

Exact Propagation of Uncertainties in Multiplicative Models 355
By Phongtape Wiwatanadate and H. Gregg Claycamp

Journal of Human and Ecological Risk Assessment
Volume 7, No. 5, October 2001

Special Issue:

Guest Editor: William S. Fisher

Preface

Indicators in Health and Ecological Risk Assessment: Fifth Symposium of EPA's National Health and Environmental Effects Laboratory 959
By Lawrence W. Reiter

Plenary

The Role of Indicators in Health and Ecosystem Management: A U.S. Environmental Protection Agency Perspective 961
By William S. Fisher, Laura E. Jackson, Glenn W. Suter, II, and Paul Bertram

Endocrine Disrupting Chemicals

Determining Indicators of Exposure and Effects for Endocrine Disrupting Chemicals (EDCs): An Introduction 971
By Ralph L. Cooper and Robert J. Kavlock

Extrapolation of Rodent Studies on Amniotic Fluid Contaminants to Human Populations 979
By Claude Hughes, Warren Foster, Siu Chan, Lawrence Platt, Stephanie Thompson, Slade Hubbard, Alison DuBose, and Lee Tyrey

Changing Male Reproductive Health: A Review of the Clinical Evidence? 1003
By D. Stewart Irvine

Endocrine Toxicants and Reproductive Success in Fish 1017
Glen Van Der Kraak, Mark Hewitt, Andrea Lister, M.E. McMaster, and K.R. Munkittrick

Risks of Endocrine Disrupting Compounds to Wildlife: Extrapolating from Effects on Individuals to Population Response 1027
By Timothy R. Gleason and Diane E. Nacci

Persistent Bioaccumulating Toxicants

Use of Indicators in Ecological Risk Assessments for Persistent, Bioaccumulating Toxicants 1043
By John W. Nichols

Relationship Between Measures of Exposure to PCBs/Dioxins and Behavioral Effects in Recent Developmental Studies 1059
By Deborah C. Rice

Neurobehavioral Dysfunction as a Possible Sentinel of Methylmercury Exposure 1079
By Philipe Grandjean and Roberta F. White

Improving the Development and Use of Biologically Based Dose Response Models (BBDR) in Risk Assessment 1091
By Robert S. DeWoskin, Stan Barone, Jr., Harvey J. Clewell, and R. Woodrow Setzer

Ambient Ozone

A Historical Overview of the Ozone Exposure Problem	1121
<i>By Michael C. Madden and William E. Hogsett</i>	
Relating Ozone Uptake in Forest Trees to Risk Assessment	1161
<i>By Lisa Samuelson</i>	
A Method for Identifying Exposure-Response Models for the Acute Respiratory Effects of Inhaled Irritants in Humans: Effects of Concentration, Minute Ventilation, and Duration	1131
<i>By William F. McDonnell</i>	
Complexity in Understanding Ecosystem Response to Ozone	1169
<i>By Christian P. Anderson and Nancy E. Grulke</i>	
Airspace Surface Chemistry Mediates O ₃ -Induced Lung Injury	1145
<i>By Edward M. Postlethwait and James S. Ultman</i>	
Risk Assessment of Tropospheric Ozone: Human Health, Natural Resources, and Ecology	1183
<i>By George E. Taylor, Jr</i>	
Global Climate Change	
Understanding and Managing the Health and Environmental Risks of Global Atmospheric Change	1195
<i>By H.A. Walker</i>	
Managing Global Atmospheric Change: A U.S. Policy Perspective	1211
<i>By Dennis Leaf</i>	
From Assessment to Policy: Lessons Learned from the U.S. National Assessment	1227
<i>By Joel D. Scheraga and John Furlow</i>	
Large-Scale Temperature Patterns in Past Centuries: Implications for North American Climate Change	1247
<i>By M.E. Mann</i>	
The Changing Health of Coral Reefs	1255
<i>By Richard T. Barber, Anna K. Hilting, and Marshall L. Hayes</i>	
Indicators of UV Exposure in Corals and Their Relevance to Global Climate Change and Coral Bleaching	1271
<i>By Susan Anderson, Richard Zepp, Jana Machula, Debbie Santavy, Lara Hansen, and Erich Mueller</i>	
Natural and Anthropogenic Changes in Chesapeake Bay During the Last 1000 Years	1283
<i>By Grace S. Brush</i>	
Forest Health Monitoring and Forest Inventory and Analysis Programs Monitor Climate Change Effects in Forest Ecosystems	1297
<i>By Kenneth W. Stolte</i>	
Public Health Risk Assessment Linked to Climatic and Ecological Change	1317
<i>By J.A. Patz</i>	

Harmful Algal Blooms

Health and Ecological Impacts of Harmful Algal Blooms: Risk Assessment Needs	1329
<i>By Frances M. Van Dolah, Daniel Roelke, and Richard M. Greene</i>	
The Diversity of Harmful Algal Bloom-Triggering Mechanisms and the Complexity of Bloom Initiation	1347
<i>By Daniel Roelke and Yesim Buyukates</i>	
Applications of Satellite Ocean Color Sensors for Monitoring and Predicting Harmful Algal Blooms	1363
<i>By Richard P. Stumpf</i>	
Predictive Ecological Modeling of Harmful Algal Blooms	1369
<i>By John Walsh, Bradley Penta, Dwight A. Dieterle, and W. Paul Bissett</i>	
Human Health Risks of Exposure to Estuary Waters	1385
<i>By Lynn M. Grattan</i>	
Health Effects of Toxin Producing Cyanobacteria: "The CyanoHABs"	1393
<i>By Wayne Carmichael</i>	
Health and Integrity of Coastal Communities	
An Overview Perspective on Coastal Environmental Health Indicators	1409
<i>By Donald F. Boesch and John F. Paul</i>	
Sentinel Human Health Indicators: A Model for Assessing Human Health Status of Vulnerable Communities	1419
<i>By Christopher T. De Rosa and Heraline E. Hicks</i>	
Coastal Vibrios: Identifying Relationships Between Environmental Condition and Human Disease	1437
<i>By Mark L. Tamplin</i>	
Assessing Stressors in Coastal Ecosystems: An Approach to the Patient	1447
<i>By Jeffrey A. Steevens, J. Kevin Summers, and William H. Benson</i>	
Responses of Very Shallow Marine Ecosystems to Nutrient Enrichment	1457
<i>By Scott Nixon, Betty Buckley, Steve Granger, and Joanne Blintz</i>	
Strategies for Protecting and Restoring Rhode Island's Watersheds on Multiple Scales	1483
<i>By Suzanne M. Lussier, Henry A. Walker, Gerald G. Pesch, Walter Galloway, Robert Adler, Michael Charpentier, Randy Comeleo, and Jane Copeland</i>	
Past Anomalies as a Diagnostic Tool for Evaluating Multiple Marine Ecological Disturbance Events	1493
<i>By B.H. Sherman and P.R. Epstein</i>	
Assessment of Multiple Marine Ecological Disturbances: Applying the North American Prototype to the Baltic Sea Ecosystem	1519
<i>By B.H. Sherman</i>	
Outline of a New Approach to Evaluate Ecological Integrity of Salt Marshes	1541
<i>By Cathleen Wigand, Randy Comeleo, Richard McKinney, Glen Thursby, Marnita Chintala, and Michael</i>	

Charpentier

Integration of Coastal Environmental Indicators for the U.S. Mid-Atlantic Region 1553

Risk Around the World

Sodium as a Database for Studying Its Influence on Human Health 1757

By Nives Štambuk-Giljanović

Letter to Editor

What's So Bad About Weight Loss, Blood Chemistry Effects, Kidney Toxicity, etc. in a Modeled Ecological Receptor? 1765

By Lawrence V. Tannenbaum

Happenings

TABLE OF CONTENTS *Journal of Human and Ecological Risk Assessment* **Volume 7, No. 7, December 2001**

Special Issue: NIOSH Injury Prevention Papers

Guest Editors: James T. Wassell and A. John Bailer

Occupational Injury Risk Assessment: Perspective and Introduction to the First Special Issue 1771

By Linda Rosenstock and Nancy Stout

Occupational Injury Risk Assessment: Perspective and Introduction to the Second Special Issue 1775

By James T. Wassell and A. John Bailer

Debate & Commentary

A Perspective on the Effectiveness of Risk Assessment by First-Line Workers and Supervisors in a Safety Management System 1777

By Frederic N. Bolton and James F. Kleinstauber

Machinery Risk Assessment for Risk Reduction 1787

By John Etherton, Mike Taubitz, Hani Raafat, John Russell, and Claire Roudebush

Successful Management of Musculoskeletal Disorders 1801

By J. Mark Melhorn, Larry K. Wilkinson, and Michael Dean O'Malley

Prognosis in Acute Occupational Low Back Pain: Methodologic and Practical Considerations 1811

By Glen Pransky, William Shaw, and Terence E. Fitzgerald

Toward a Typology of Dynamic and Hazardous Work Environments 1827

By Ted Scharf, Charlie Vaught, Pamela Kidd, Lisa Steiner, Kathleen Kowalski, Bill Wiehagen, Lynn

Rethi, and Henry Cole

Original Research

A Graphical Analysis of Mortality Rates and Years of Potential Life Lost 1843
By James F. Bena, A. John Bailer, Robert M. Park, and William E. Halperin

Work-Related and Non-Work-Related Injury Deaths in the U.S.: A Comparative Study 1859
By Guang-Xiang Chen, E. Lynn Jenkins, Suzanne M. Marsh, and Janet J. Johnston

Fatal Occupational Injuries Among Hispanic Construction Workers of Texas, 1997–1999 1869
By Victor Fabrega and Serena Starkey

Will Risks to Older Workers Change in the 21st Century? 1885
By Daniel Hartley and Elyce Anne Biddle

A Hazard Analysis of Three Silage Storage Methods for Dairy Cattle 1895
By K. Gunnar Josefsson, Larry J. Chapman, Alvaro D. Taveira, Brian J. Holmes, and David Hard

Risk Assessment and Safety Evaluation Using Probabilistic Fault Tree Analysis 1909
By Faisal I. Khan and Tahir Husain

Occupational Injury Risk Assessment Using Injury Severity Odds Ratios: Male Falls 1929
from Heights in the Danish Construction Industry, 1993–1999
By Pete Kines

Teenagers’ Experience with Occupational Health and Safety Issues in West Virginia 1945
By P. Simoi, L. Frederick, and C. Niezen

Happenings

Dual Track Review Process

TABLE OF CONTENTS
Journal of Human and Ecological Risk Assessment
Volume 8, No. 1, January 2002

Special Issue: Proceedings of the 4th NHEERL Symposium

Guest Editor: Wayne R. Munns, Jr.

Extrapolation in Human Health and Ecological Risk Assessments: Proceedings 1
of a Symposium
By Wayne R. Munns, Jr. and Robert MacPhail

Trends in the Development of Ecological Risk Assessment and Management Frameworks 7
By M. Power and L.S. McCarty

Axes of Extrapolation in Risk Assessment 19
By Wayne R. Munns, Jr

Genetic Factors in Susceptibility: Serum PON1 Variation Between Individuals and Species 31
By C. E. Furlong, W.-F. Li, D. M. Shih, A. J. Lulis, R. J. Richter, and L. G. Costa

Extrapolation for Terrestrial Vertebrates 45

By Stuart Dobson and Richard F. Shore

Salmon and Complexity: Challenges to Assessment	55
<i>By David A. Bella</i>	
Tissue Carboxylesterases and Chlorpyrifos Toxicity in the Developing Rat	75
<i>By S.M. Chanda, T.L. Lassiter, V.C. Moser, S. Barone, Jr., and S. Padilla</i>	
Evolutionary and Ecological Effects of Multi-Generational Exposures to Anthropogenic Stressors	91
<i>By Diane Nacci, Timothy R. Gleason, and Wayne R. Munns, Jr</i>	
Ecological Stability: Reality, Misconceptions and Implications for Risk Assessment	99
<i>By Gary E. Belovsky</i>	
The Importance of Spatial Effects for Environmental Health Policy and Research	109
<i>By Ken Sexton, Lance A. Waller, Robert B. McMaster, George Maldonado, and John L. Adgate</i>	
Landscape Ecotoxicology and Assessment of Risk at Multiple Scales	127
<i>By Alan R. Johnson</i>	
Scale Interactions and Regional Climate: Examples from the Susquehanna River Basin	147
<i>By Robert G. Crane, Brent Yarnal, Eric J. Barron, and Bruce Hewitson</i>	
Bioindicators Versus Biomarkers in Ecological Risk Assessment	159
<i>By L.S. McCarty, M. Power, and KR Munkittrick</i>	
Biomarkers as Predictors in Health and Ecological Risk Assessment	165
<i>By Janice E. Chambers, J. Scott Boone, Russell L. Carr, Howard W. Chambers and David L. Straus</i>	
Extrapolation in Risk Assessment: Improving the Quantification of Uncertainty, and Improving Information to Reduce the Uncertainty	177
<i>By Daniel Goodman</i>	
Uncertainty in the Extrapolation from Individual Effects to Impacts upon Landscapes	193
<i>By Wayne G. Landis</i>	
The Health of Ecology and the Ecology of Health	205
<i>By David J. Rapport</i>	

TABLE OF CONTENTS

Editorial

The Future of Environmental Health: Lessons from History?	217
<i>By Barry L. Johnson</i>	

Perspectives

Restoring Wild Salmon to the Pacific Northwest: Framing the Risk Question	223
<i>By Robert T. Lackey</i>	
Public Health Perspectives on Dioxin Risks: Two Decades of Evaluation	233

By H.R. Pohl, H.E. Hicks, D.E. Jones, H. Hansen, and C.T. De Rosa

Debate and Commentary

Immunotoxicology and Risk Assessment – Present Prospects, Future Directions 251
By Peter M. Chapman, Guest Editor

Immunotoxicity Biomarkers in Fish: Development, Validation and Application for Field 253
Studies and Risk Assessment
By J.T. Zelikoff, E. Carlson, Y. Li, A. Raymond, J. Duffy, J.R. Beaman, and M. Anderson

Ecological Risk Assessment Paradigm for Salmon: Analyzing Immune Function 265
to Evaluate Risk
By M.R. Arkoosh and T. K. Collier

The role of immunotoxic environmental contaminants in facilitating the emergence of 277
infectious diseases in marine mammals
By Peter S. Ross

Pesticide-induced Immunotoxicity: Are humans at Risk? 293
By Bob Luebke

Contributed Papers

Assessing Toxicity of Mixtures: The Search for Economical Study Designs 305
By Bertram Price, Christopher J. Borgert, Christopher S. Wells, and Glenn S. Simon

Radiation Hormesis and Cancer 327
By Edward J. Calabrese and Linda A. Baldwin

Relationships Between Aquatic Hazard Quotients and Total Risk Estimates: What is the 355
Significance of a Hazard Quotient > 1?
By Joseph S. Volosin and Rick D. Cardwell

An Evaluation of the Uncertain Risk Components in a Dredged Material Assessment 369
By D.J. Vorhees, S.B. Kane Driscoll, K. von Stackelberg, J.J. Cura, and T.S. Bridges

Conceptual Site Models and Multimedia Modeling: Comparing MEPAS, MMSOILS, 391
and RESRAD
By James L. Regens, Karen R. Obenshain, Curtis Travis, and Chris Whipple

A Regional Multiple Stressor Risk Assessment of the Codorus Creek Watershed Applying 405
the Relative Risk Model
By Angela M. Obery and Wayne G. Landis

Assessment of the Dermal Bioavailability of Soil-Aged Benzo(a)pyrene 429
By Mohammed S. Abdel-Rahman, Gloria A. Skowronski, and Rita M. Turkall

Risk Around the World

Risk Assessment Resources on the World-Wide Web (WWW) 443
By Ruth N. Hull, Glenn M. Ferguson, Janine D. Glaser, and Robert Willis

Letter to Editor

Uncertainty Factor Equations for Children 459
By *Kim Z. Travis*

Happenings

Editorial

Papers of Year 2001:

By *Barry L. Johnson and Edward Calabrese*

Ecological Risk Assessment Paper of Year 2001

K.R. Solomon, J.P. Giesy, R.J. Kendall, L.B. Best, J.R. Coats, K.R. Dixon, M.J. Hooper, E.E. Kenaga, and S.T. McMurry. 2001. Chlorpyrifos: Ecotoxicological Risk Assessment for Birds and Mammals in Corn Agroecosystems. *Human Ecol Risk Assess* 7(3):497-632

Human Risk Assessment Paper of Year 2001

Bruce D. Naumann, Keith C. Silverman, Rakesh Dixit, Ellen C. Faria, and Edward V. Sargent. 2001. Case Studies of Categorical Data-Derived Adjustment Factors. *Human Ecol Risk Assess* 7(1):61-107

Perspectives

The Default Value Approach to the Precautionary Principle 463
By *Per Sandin and Sven Ove Hansson*

Species Sensitivity Distribution Revisited: A Critical Appraisal 473
By *Valery E. Forbes and Peter Calow*

Contributed Papers

The Use of Probabilistic Risk Assessment in Establishing Drinking Water Quality 493
Objectives
By *S.N. Rai, S. Bartlett, and D. Krewski*

Quantitative Exposure-Response Assessment Approaches to Evaluate Acute Inhalation 511
By *Judy A. Strickland and David J. Guth*

SCRAM: A Scoring and Ranking System for Persistent, Bioaccumulative, and Toxic 537
Substances for the North American Great Lakes—Resulting Chemical Scores and Rankings
By *Rachel R. Mitchell, Cheryl L. Summer, Dennis M. Bush, Gary K. Hurlburt, Erin M. Snyder, and John R. Giesy*

Evaluation of a Non-Invasive Method for the Estimation of Methylmercury Exposure of 559
Recreational Anglers in the James Bay Territory (Quebec, Canada)
By *Sylvain Loranger, Roger Schetagne, Michel Plante, Gaétan Carrier, Sébastien Sauvé, Bertrand Émard, and Louis Piché*

Impact of Risk-Based Corrective Action (RBCCA) on State Corrective Action Programs 573
By *John A. Connor and Thomas E. McHugh*

Site-Specific Derivation of the Acute Copper Criteria for the Clinch River, Virginia 591
By *Donald S. Cherry, John H. Van Hassel, Jerry L. Farris, and David J. Soucek*

A Comparative Screening-Level Ecological and Human Health Risk Assessment for 603
Dredged Material Management Alternatives in New York/New Jersey Harbor
*By Susan B. Kane Driscoll, W. Theodore Wickwire, Jerome J. Cura, Donna J. Vorhees, Cheri L. Butler,
Laurel P. Williams, David W. Moore, and Todd S. Bridges*

Letter to Editor

Confounding Factors and the Use of Epidemiological Data in Risk Assessment 607
By Fritz A. Seiler and Joseph L. Alvarez

Happenings

TABLE OF CONTENTS
Journal of Human and Ecological Risk Assessment
Volume 8, No. 4, June 2002

Editorial

From Obscurity to Maturity: ATSDR's Toxicological Profiles 633
By Christopher T. De Rosa, Ralph J. Touch III, and Barry L. Johnson

Contributed Papers

Screening Evaluation of the Ecological Risks to Terrestrial Wildlife Associated with a Coal 637
Ash Disposal Site
By Bradley E. Sample and Glenn W. Suter II

A Human Health Risk Assessment of Pharmaceuticals in the Aquatic Environment 657
*By Lisa J. Schulman, Edward V. Sargent, Bruce D. Naumann, Ellen C. Faria, David G. Dolan, and John
P. Wargo*

Assessment of Human Health and Ecological Risks Posed by the Environmental Uses 681
of Steel Industry Slags
By Deborah M. Proctor, Erin C. Shay, Kurt A. Fehling, and Brent L. Finley

Development of a Biokinetic Model to Evaluate Dermal Absorption of Polycyclic Aromatic 713
Hydrocarbons from Soil
By Jo Anne Shatkin, Mandeera Wagle, Sean Kent, and Charles A. Menzie

Range-Finding Study of Risk Factors for Childhood Asthma Development and Their 735
Potential Impact on National Asthma Prevalence
By John A. Bukowski, R. Jeffrey Lewis, John F. Gamble, Nancy C. Wojcik, and Robert J. Laumbach

Special Section: The Fifth Annual Workshop on Evaluation of Default Safety Factors in Health Risk Assessment

Overview

The Fifth Annual Workshop on Evaluation of Default Safety Factors in Health 767
Risk Assessment
By Mohamed S. Abdel-Rahman, Guest Editor

Invited Papers

Guidance for Derivation of Chemical Specific Adjustment Factors (CSAF) – Development 769
and Implementation
By Bette Meek, Andrew Renwick, Ed Ohanian, and Cindy Sonich-Mullinose

Scaling and Extrapolation Across Age Groups	783
<i>By Lorenz R. Rhomberg</i>	
The Importance of Human Data in the Establishment of Occupational Exposure Limits	805
<i>By Edward V. Sargent, Bruce D. Naumann, David G. Dolan, Ellen C. Faria, and Lisa Schulman</i>	
A Study of Safety Factors for Risk Assessment of Drugs Used for Treatment of Attention Deficiency Hyperactivity Disorder in Sensitive Populations	823
<i>By Carmen E. Riyad, Gloria A. Skowronski, Rita M. Turkall, and Mohamed S. Abdel-Rahman</i>	
Evaluating the 10X Uncertainty Factor for Children and Elderly with Data-Derived Values	841
for Neuromuscular Blocking Agents <i>By Duck H. Suh and Mohamed S. Abdel-Rahman</i>	
Application of Kinetic and Dynamic Data for Antihistamines to Risk Characterization	859
in Sensitive Populations <i>By Gloria A. Skowronski, Mohamed S. Abdel-Rahman, and Rita M. Turkall</i>	
Adult:Child Differences in the Intraspecies Uncertainty Factor: A Case Study Using Lead	877
<i>By Barbara D. Beck, Rosemary L. Mattuck, and Teresa S. Bowers</i>	
An Objective Uncertainty Factor Adjustment for Methylmercury Pharmacokinetic Variability	885
<i>By Alan H. Stern, Harvey J. Clewell, and Jeff Swartout</i>	
A National and International Debate on Default Uncertainty Factors vs. Data-Derived	895
Uncertainty Factors <i>By Richard Davis, Michael Dourson, Bette Meek, Margaret Miller, Jay Murray, Bruce Naumann, and Edward Ohanian</i>	
Happenings	
Erratum: HERA 8(2): 236, line 21	915
Public Health Perspectives on Dioxin Risks: Two Decades of Evaluation

By Barry L. Johnsoni

Perspective

Weight of Evidence Issues and Frameworks for Sediment Quality (And Other) Assessments 1489
By Peter M. Chapman, Blair G. McDonald, and Gary S. Lawrence

Debate & Commentary

Uncertainties in Sediment Quality Weight-of-Evidence (WOE) Assessments 1517
By Graeme E. Batley, G. Allen Burton, Peter M. Chapman, and Valery E. Forbes

Initial Development and Evaluation of a Sediment Quality Index for the Great Lakes Region 1549
By Lee Grapentine, Chris Marvin, and Scott Painter

Integrating Multiple Toxicological Endpoints in a Decision-Making Framework for Contaminated Sediments 1569
By T.B. Reynoldson, S.P. Thompson, and D. Milani

Weight-of-Evidence (WOE): Quantitative Estimation of Probability of Impairment for Individual and Multiple Lines of Evidence <i>By Eric P. Smith, Ilya Lipkovich, and Keying Ye</i>	1585
A Pooled Response Strategy for Combining Multiple Lines of Evidence to Quantitatively Estimate Impact <i>By A. John Bailer, Michael R. Hughes, Kyoungah See, Robert Noble, and Robert Schaefer</i>	1597
A Comparison of Three Weight-of-Evidence Approaches for Integrating Sediment Contamination Data Within and Across Lines of Evidence <i>By Trefor B. Reynoldson, Eric P. Smith, and A. John Bailer</i>	1613
Applying Weight of Evidence in Retrospective Ecological Risk Assessment When Quantitative Data Are Limited <i>By Valery E. Forbes and Peter Calow</i>	1625
A Decision-Making Framework for Sediment Assessment Developed for the Great Lakes <i>By Lee Grapentine, Janette Anderson, Duncan Boyd, G. Allen Burton, Conrad DeBarros, Gary Johnson, Chris Marvin, Danielle Milani, Scott Painter, Tim Pascoe, Trefor Reynoldson, Lisa Richman, Keith Solomon, and Peter M. Chapman</i>	1641
Weight-of-Evidence Approaches for Assessing Ecosystem Impairment <i>By G. Allen Burton, Jr, Peter M. Chapman, and Eric P. Smith</i>	1657
A Weight-of-Evidence Framework for Assessing Sediment (Or Other) Contamination: Improving Certainty in the Decision-Making Process <i>By G. Allen Burton, Jr., Graeme E. Batley, Peter M. Chapman, Valery E. Forbes, Eric P. Smith, Trefor Reynoldson, Christian E. Schlekot , Pieter J. den Besten, A. John Bailer, Andrew S. Green, and Robert L. Dwyer</i>	1675
Contributed Papers	
Estimation of Multimedia Inorganic Arsenic Intake in the U.S. Population <i>By Dianne M. Meacher, Daniel B. Menzel, Michael D. Dillencourt, Lubomir F. Bic, Ronalind A. Schoof, Lisa J. Yost, Jane C. Eickhoff, and Craig H. Farr</i>	1697
Distribution of Daily Breathing Rates for Use in California’s Air Toxics Hot Spots Program Risk Assessment <i>By Melanie A. Marty, Robert J. Blaisdell, Rachel Broadwin, Martin Hill, Dorothy Shimer, and Margaret Jenkins</i>	1723
A Controlled Growth and Differentiation Model for Non-Monotonic Responses <i>By Shree Y. Whitaker and Christopher J. Portier</i>	1739
Analysis and Portrayal of Uncertainty in a Food Web Exposure Model <i>By Helen M. Regan, Bruce K. Hope, and Scott Ferson</i>	1757
Regional Risk Assessment of a Brazilian Rain Forest Reserve <i>By Rosana Moraes, Wayne G. Landis, and Sverker Molander</i>	1779
Quantitative Consideration of Ecosystem Characteristics in an Ecological Risk Assessment: A Case Study	1805

By Rachel N. Wallack and Bruce K. Hope

A Proposed Working Definition for the Novel Concept of Neurobehavioral Hormesis 1815
By Marni Y.V. Bekkedal, Glenn D. Ritchie, Kenneth R. Still, and John Rossi, III

Risk Around the World

Trends in Risk Assessment of Chemicals in the European Union 1825
By Charles Bodar, Jack de Bruijn, Theo Vermeire, and Peter van der Zandt

Communication in the Age of Risk Management 1
By Kimberly M. Thompson

Perspective

Can Ecological Receptors Really Be At Risk? 5
By Lawrence V. Tannenbaum

Debate & Commentary

Establishing Causal Relationships between Environmental Stressors and Biological Effects in Field Studies 15
By Tracy K. Collier and S. Marshall Adams, Guest Editors

Establishing Causality Between Environmental Stressors and Effects on Aquatic Ecosystems 17
By S. Marshall Adams

Establishing Causality Between Population Genetic Alterations and Environmental Contamination in Aquatic Organisms 37
By Christopher W. Theodorakis

Use of Biochemical Endpoints to Determine Relationships Between Contaminants and Impaired Fish Health in a Freshwater Stream 59
By Daniel Schlenk

Establishing the Causal Relationship between Polycyclic Aromatic Hydrocarbon (PAH) Exposure and Hepatic Neoplasms and Neoplasia-related Liver Lesions in English sole (*Pleuronectes vetulus*) 67
By Mark S. Myers, Lyndal L. Johnson, and Tracy K. Collier

Assessing Toxicant Effects in a Complex Estuary: A Case Study of Effects of Silver on Reproduction in the Bivalve, *Potamocorbula amurensis*, in San Francisco Bay 95
By Cynthia L. Brown, Francis Parchaso, Janet K. Thompson, and Samuel N. Luoma

Field Studies Using European Starlings to Establish Causality Between PCB Exposure and Reproductive Effects 121
By Richard S. Halbrook and Christine A. Arenal

Evidence for a Causal Link between Exposure to an Insecticide Formulation and Declines 137

in Catch of Atlantic Salmon

By S.B. Brown and W.L. Fairchild

Establishing Causality between Exposure to Metals and Effects on Fish 149

By R. Moraes, P. Gerhard, L. Andersson, J. Sturve, S. Rauch, and S. Molander

Establishing Causality Between Pollution and Effects at Different Levels of Biological 171

Organization: The VALIMAR Project

By Rita Triebkorn, Stefan Adam, Anja Behrens, Stefanie Beier, Jürgen Böhmer, Thomas Braunbeck, Heidi Casper, Uwe Dietze, Maike Gernhöfer, Wolfgang Honnen, Heinz-R. Köhler, Wolfgang Körner, Jens Konradt, Reinhold Lehmann, Till Luckenbach, Axel Oberemm, Julia Schwaiger, Helmut Segner, Marija Strmac, Gerrit Schüürmann, Simonetta Siligato, and Walter Traunspurger

A Proposed Framework for Investigation of Cause for Environmental Effects Monitoring 195

By L. Mark Hewitt, Monique G. Dubé, Joseph M. Culp, Deborah L. MacLatchy, and Kelly R. Munkittrick

Minimizing Cognitive Errors in Site-Specific Causal Assessments 213

By Susan Braen Norton, Leela Rao, Glenn Suter II, and Susan M. Cormier

Using Nested Models and Laboratory Data for Predicting Population Effects 231

of Contaminants on Fish: A Step Towards a Bottom-Up Approach for Establishing Causality in Field Studies

By K.A. Rose, C.A. Murphy, S.L. Diamond, L.A. Fuiman, and P. Thomas

Forensic Ecotoxicology: Establishing Causality Between Contaminants and Biological 259

Effects in Field Studies

By Tracy K. Collier

Special Section

Framework for Integration of Human and Ecological Risk Assessment. Glenn W. Suter II, Guest Editor

Approaches for Integrated Risk Assessment 267

By Wayne R. Munns, Jr., Robert Kroes, Gilman Veith, Glenn W. Suter II, Terri Damstra, and Michael D. Waters

Types of Integration in Risk Assessment and Management, and Why They Are Needed 273

By Glenn W. Suter II, Wayne R. Munns, Jr., and Jun Sekizawa

Framework for the Integration of Health and Ecological Risk Assessment 281

By Glenn W. Suter II, Theo Vermeire, Wayne R. Munns, Jr. and Jun Sekizawa

Integrated Human and Ecological Risk Assessment: A Case Study of Persistent Organic 303

Pollutants (POPs) in Humans and Wildlife

By Peter S. Ross and Linda S. Birnbaum

Integrated Human and Ecological Risk Assessment: A Case Study of Tributyltin 325

and Triphenyltin Compounds

By Jun Sekizawa, Glenn Suter II, and Linda Birnbaum

Integrated Human and Ecological Risk Assessment: A Case Study of Organophosphorous 343

Pesticides in the Environment

By Theo Vermeire, Robert McPhail, Mike Waters

Integrated Human and Ecological Risk Assessment: A Case Study of Ultraviolet Radiation 359 Effects on Amphibians, Coral, Humans, and Oceanic Primary Productivity <i>By Lara Hansen, Steven F. Hedtke, and Wayne R. Munns, Jr.</i>	359
Integrated Risk Assessment – Results of an International Workshop 379 <i>By Wayne R. Munns, Jr., Glenn W. Suter II, Terri Damstra, Robert Kroes, Lawrence W. Reiter, and Erminio Marafante</i>	379
Contributed Paper	
Application of the Hazard Quotient Method in Remedial Decisions: A Comparison 387 of Human and Ecological Risk Assessments <i>By Lawrence V. Tannenbaum, Mark S. Johnson, and Matthew Bazar</i>	387
Risk Around The World	
The Cultural Relics Distribution Characteristics Along the Canal Line and Appraisal of Its 403 Influence by the Middle Route Project for Water Transferring from South to North China <i>By Yanjun Shang, Sijing Wang, Kunshu Zhou, Zhifa Yang, and Lihui Li</i>	403
Continuation of October 2002 NIOSH Special Issue	
Risk Assessment: Replacing Default Options with Specific Science 421 <i>By Roger O. McClellan</i>	421

Volume 9, No. 3, April, 2003

Editorials

HERA Papers of Year 2002 637
By Barry L. Johnson and Edward Calabrese

A Rush to Diminish the World Health Organization 639
By Barry L. Johnson

Perspectives

How Will Global Climate Change Affect Risks from Long-Range Transport of Persistent 643
Organic Pollutants?
By R.W. Macdonald, D. Mackay, Y.-F. Li, and B. Hickie

Cadmium Concentration Limits in Agricultural Soils: Weaknesses in USEPA's Risk 661
Assessment and the 503 Rule
By Murray B. McBride

Contributed Papers

Comparison of Two U.S. Environmental Protection Agency Species Susceptibility 675
Distribution Methods That Can Be Used for Calculating Ecological Risk Criteria
By Daniel J. Fisher and Dennis T. Burton

Is Seafood PCB Data Sufficient to Assess Health Risk for High Seafood Consumption 691
Groups?
By Nancy Judd, Sandra M. O'Neill, and David A. Kalman

Which Effect Measure Should Be Used for Impact Assessment in a New Population 709
Context?
By Martin Rössli, Nino Kunzli, Christian Schlindler, and Charlotte Braun-Fahrlander

Maximum Residue Levels: Fact or Fiction? 721
By Kieran Hyder, Kim Z. Travis, Zoe K. Webb, and Ian Pate

A Conceptual Framework for Using Mussels as Biomonitors in Whole Effluent Toxicity 741
By Roel Smolders, Lieven Bervoets, Victor Wepener, and Ronny Blust

Predicting the Effects of Endocrine Disrupting Chemicals on Fish Populations	761
<i>By A.R. Brown, A.M. Riddle, N.L. Cunningham, T.J. Kedwards, N. Shillabeer, and T.H. Hutchinson</i>	
The Precautionary Principle in Practice: Applying the Ashford Framework	769
<i>By Margaret H. Hornbaker and Alison Cullen</i>	
When Domestic Environmental Policy Meets International Trade Policy:	811
Venezuela's Challenge to the U.S. Gasoline Rule	
<i>By M. Seamus Ryan and Kimberly M. Thompson</i>	
Case Study Report	
The Passaic River Creel/Angler Survey: Expert Panel Review, Findings,	829
and Recommendations	
<i>By Brent L. Finley, Timothy J. Iannuzzi, Natalie D. Wilson, Jason L. Kimmell, Valerie Craven, Stanley Lemeshow, Christopher M. Teaf, Edward J. Calabrese, and Paul T. Kostecki</i>	
Risk Around The World	
A Conceptual Model for Analysing the Risks Involved in the Transportation of Hazardous	857
Goods: Implementation in a Geographic Information System	
<i>By R. Alegria, C. Ordonez, and J. Taboda</i>	
Happenings	880

TABLE OF CONTENTS
Journal of Human and Ecological Risk Assessment
Volume 9, No. 4, June, 2003

Editorial

Quality of Life and Attainment of National Ambient Air Quality Standards.	637
Are They Compatible? More Questions Than Answers. The Challenge for Risk Assessment. More Questions Than Answers	
<i>By Carmine DiBattista and David Brown</i>	

Perspective

Conducting Ecological Risk Assessments of Inorganic Metals and Metalloids – Current	641
Status	
<i>By Peter M. Chapman, Feiyue Wang, Colin R. Janssen, Richard R. Goulet, and Collins N. Kamunde</i>	

Debate & Commentary

Differentiating Natural and Anthropogenic Sources of Metals to the Environment	699
<i>By G.M. Dias and G.C. Edwards</i>	
Modeling the Effect of Trace Metal Emissions on Boreal Forest Soils	723
<i>By D. MacDonald, K. Taillon, D. Johnson, B. Hale, and W. Hendershot</i>	
Metals in Northern Forest Ecosystems: Role of Vegetation in Sequestration	749
and Cycling, and Implications for Ecological risk Assessment	
<i>By D. Johnson, D. MacDonald, W. Hendershot, and B. Hale</i>	

Metal Deposition Chronologies in Boreal Shield Lakes: Distinguishing Anthropogenic Signals from Diagenetic Effects	769
<i>By Richard Carignan, André Tessier, and Lise Rancourt</i>	
Metal Sources for Freshwater Invertebrates: Pertinence for Risk Assessment	779
<i>By Landis Hare, André Tessier, and Uwe Borgmann</i>	
Effects of Metal Mixtures on Aquatic Biota: A Review of Observations and Methods	795
<i>By W.P. Norwood, U. Borgmann, D.G. Dixon, and A. Wallace</i>	
The Effect of Chronic Waterborne and Dietary Exposure on Gill-Metal Binding: Implications for the Biotic Ligand Model	813
<i>By S. Niyogi and Chris M. Wood</i>	
Differentiating Between Direct (physiological) and Food-Chain Mediated (bioenergetic) Effects on Fish in Metal-Impacted Lakes	847
<i>By Peter G.C. Campbell, Alice Hontela, Joseph B. Rasmussen, Anik Giguère, Amélie Gravel, Lisa Kraemer, Jennifer Kovescs, Alexandra Lacroix, Haude Levesque, and Graham Sherwood</i>	
Impacts of Mercury on Freshwater Fish-Eating Wildlife and Humans	867
<i>By H.M. Chan, A.M. Scheuhammer, A. Ferran, C. Loupelle, J. Holloway, and S. Weech</i>	
Special Section	
Introduction: Improving Chemical Risk Assessments through Ecological Modeling	885
<i>By Robert A. Pastorok, Guest Editor</i>	
Treatments of Uncertainty and Variability in Ecological Risk Assessment of Single-Species Populations	889
<i>By Helen M. Regan, H. Reşit Akçakaya, Scott Ferson, Karen V. Root, Steve Carroll, and Lev R. Ginzburg</i>	
Realism and Relevance of Ecological Models Used in Chemical Risk Assessment	907
<i>By Steve Bartell, Robert A. Pastorok, H. Resit Akçakaya, Helen Regan, Scott Ferson, and Christopher Mackay</i>	
Role of Ecological Modeling in Risk Assessment	939
<i>By Robert A. Pastorok, H. Resit Akçakaya, Helen Regan, Scott Ferson, and Steven M. Bartell</i>	
Contributed Papers	
Haber's Rule: The Search for Quantitative Relationships in Toxicology	973
<i>By Nigel J. Bunce and Rene B.J. Remillard</i>	
Importance of Different Volatile Petroleum Hydrocarbon Fractions in Human Health Risk Assessment	987
<i>By James H. Sevigny, Miles J. Tindal, Geneva L. Robins, Wilfried Staudt, and Larry Serbin</i>	
Joint PCB - Methylmercury Exposures and Neurobehavioral Outcomes	1003
<i>By J. F. Risher, C. T. De Rosa, H. E. Murray, and D. E. Jones</i>	
Interaction Effects of Wrist and Forearm Posture on the Prediction of Carpal Tunnel Syndrome Cases Within a Fish Processing Facility	1011

By Kari Babski-Reeves and Lesia Crumpton-Young

Multicriteria Bayesian Analysis of Lower Trophic Level Uncertainties and Value 1023
of Research in Lake Erie

By Jong Bum Kim, Benjamin F. Hobbs, and Joseph F. Koonce

Impacts of Mine Drainage and Other Nonpoint Source Pollutants on Aquatic Biota 1059
in the Upper Powell River System, Virginia

By David J. Soucek, Donald S. Cherry, and Carl E. Zipper

Risk Around The World

Screening Level Assessment of Risks Associated with Dietary Exposure to Selected Heavy 1075
Metals, Polycyclic Aromatic Hydrocarbons, and Radionuclides in Kuwait

*By Adnan Husain, Wajih Sawaya, Ali Al-Sayegh, Hanan Al-Amiri, Jameela Al-Sager, Tahani Al-Sharrah,
Mohammed Khalafawi, Rabaa Al-Kandari, and Mohammed Al-Foudari*

Occasional Book Reviews 1089

Happenings 1091

TABLE OF CONTENTS
Journal of Human and Ecological Risk Assessment
Volume 9, No. 5, August, 2003

Essays in Commemoration of the 20th Anniversary of the National Research Council's 1093

Risk Assessment in the Federal Government: Managing the Process

By Barry L. Johnson and James J. Reisa, Guest Editors

Essays Contributed by Members of the Red Book Committee

Risk Assessment in the Courtroom 1101

By Morton Corn

Quantitative Risk Assessment Since the Red Book: Where Have We Come and Where 1105
Should We Be Going?

By Kenny S. Crump

The Red Book Committee: Creative Conflict 1113

By J. Clarence Davies

The Red Book in Historical Context 1119

By Richard A. Merrill

Distortions of the "Mis-read" Book: Adding Procedural Botox to Paralysis by Analysis 1129

By Franklin E. Mirer

Reflections on the Red/Mis-Read Book, 20 Years After 1145

By D. Warner North

On the Significance of "The Red Book" in the Evolution of Risk Assessment and Risk 1155
Management

By Gil Omenn

What Happened to the Red Book’s Second Most Important Recommendation?	1169
<i>By Joseph V. Rodricks</i>	
Going Beyond the Red Book: The Sociopolitics of Risk	1181
<i>By Paul Slovic</i>	
Impressions on Risk: The Forest or the Tree?	1191
<i>By Elizabeth K. Weisburger</i>	
Invited Essays Contributed by Risk Assessment Experts	
The Red Book in Context: Science at the Center	1197
<i>By Elizabeth L. Anderson</i>	
The Red Book and the Practice of Environmental Public Health: Promise, Pitfalls,	1203
and Progress	
<i>By Thomas A. Burke</i>	
How the Risk Commission Evolved from the Red Book	1213
<i>By Gail Charnley</i>	
Public Health Perspectives: The Impact of 20 Years of Risk Assessment	1219
<i>By Christopher T. De Rosa and Hugh Hansen</i>	
The “Red Book” and Other Risk Assessment Milestones	1229
<i>By John Doull</i>	
A 20-Year Perspective on the Development of Non-Cancer Risk Assessment Methods	1239
<i>By Michael Dourson and Jacqueline Patterson</i>	
Too Much of the “Red Book” is Still (!) Ahead of its Time	1253
<i>By Adam M. Finkel</i>	
The Red Book: A Reassessment of Risk Assessment	1273
<i>By Lynn R. Goldman</i>	
Risk Characterization and the Red Book	1283
<i>By Bernard D. Goldstein</i>	
The Red Book, a Red Herring, and the Red Tape: A European Perspective	1291
<i>By Philippe Grandjean</i>	
The Red Book, Risk Assessment, and Policy Analysis: The Road Not Taken	1297
<i>By Dale Hattis and Rob Goble</i>	
Offspring of Red Book: The Euthanized DHHS White Paper	1307
<i>By Barry L. Johnson</i>	
Twenty Years Before and Hence; Ecological Risk Assessment at Multiple Scales With	1317
Multiple Stressors and Multiple Endpoints	
<i>By Wayne G. Landis</i>	

A European Perspective on the NRC “Red Book,” <i>Risk Assessment in the Federal Government: Managing the Process</i> By Ragnar Lofstedt	1327
The Risk Assessment Paradigm as a Blueprint for Environmental Research	1337
By Dorothy E. Patton and Robert J. Huggett	
The Evolution of Frameworks for Ecological Risk Assessment from the Red Book Ancestor By Glenn W. Suter II, Susan B. Norton, Lawrence W. Barnthouse	1349
Risk, Emotion, and Reason: Postscript to the Red Book	1361
By Curtis Travis	
Impacts of the Red Book	1373
By Bailus Walker, Jr.	
Occupational Injury Risk Assessment: An Unintended and Unanticipated Consequence of the Red Book By James T. Wassell	1383
Happenings	1391
Errata —June 2003 HERA: Haber’s Rule: The Search for Quantitative Relationships in Toxicology by Nigel J. Bunce and Rene B.J. Remillard	1395

TABLE OF CONTENTS
Journal of Human and Ecological Risk Assessment
Volume 9, No. 6, October, 2003

Editorial

Electric Power Loss and Risk Communication Gain	1397
By Barry L. Johnson	

Perspective

Further Deliberations on Uncertainty in Risk Assessment	1399
By Harry Marks, Margaret Coleman, and Matthew Michael	

Debate & Commentary

New Approaches in Ecological Risk Assessment: Expanding Scales, Increasing Realism, and Enhancing Causal Analysis	1411
By W. Theodore Wickwire and Charles A. Menzie	

The Frontiers in Ecological Risk Assessment at Expanding Spatial and Temporal Scales	1415
By Wayne G. Landis	

Rationale for Use of Wildlife Habitat Characterization to Improve Relevance of Ecological Risk Assessments	1425
By Lawrence A. Kapustka	

The U.S. Environmental Protection Agency’s Stressor Identification Guidance: A Process for Determining the Probable Causes of Biological Impairments.	1431
--	------

By Susan M. Cormier, Susan Braen Norton, and Glenn W. Suter II

Contributed Papers

Towards Consistent Evaluation of the Persistence of Organic, Inorganic, and Metallic 1445
Substances

By Don Mackay, Eva Webster, David Woodfine, Tom Cahill, Patrick Doyle, Yves Couillard, and Don Gutzman

Bottom Up and Top Down – Levels of Refinement in Wildlife Risk Assessments 1475

By Anne Fairbrother

A Theoretical Approach to Modeling Ionizing Radiation Migration and Dose 1493
in Aquatic Environments Using Monte Carlo Simulation

*By E.N. Avrorin, A.G. Tsvetokhin, A.I. Xenofontov, E.I. Kourbatova, J.L. Regens,
and J.T. Gunter*

Airborne Tire Particles in the Environment: A Possible Asthma Risk from Latex Proteins? 1505

By Brent L. Finley, Dennis R. Ownby, and Sean M. Hays

Inhalation of Mercury-Contaminated Particulate Matter by Dentists: An Overlooked 1519
Occupational Risk

By G. Mark Richardson

Are Exposure and Ecological Risks of PAHs Underestimated at Petroleum 1533
Contaminated Sites?

By Mace G. Barron and Eric Holder

Reprint of Article by Bunce and Remillard

Haber’s Rule: The Search for Quantitative Relationships in Toxicology 1547

By Nigel J. Bunce and Rene B.J. Remillard

Risk Around the Country

Ecological Risk Assessment with the U.S. Department of Defense 1561

By Jody R. Wireman, Michael J. Hooper, and Ronald C. Porter

Happenings 1581

TABLE OF CONTENTS

Journal of Human and Ecological Risk Assessment

Volume 9, No. 7, December, 2003

Editorial

What is the Most Important Question in Hazard Evaluation and Risk Assessment? 1583

By Barry L. Johnson

Perspective

Improving the Use of Toxicity Reference Values in Wildlife Food Chain Modeling 1585
and Ecological Risk Assessment

By Blair G. McDonald and John B. Wilcockson

Debate & Commentary

The Use of Background Data in Risk Assessments: Introductory Comments 1595

By Daniel S. Jones, Guest Editor

Understanding Background in Hazardous Waste Site Risk Assessments: 1599
Getting Back to Basics

By Lawrence V. Tannenbaum

Applications of Background Data in Ecological Risk Assessment: Various Shades of Gray 1609

By Mark E. Stelljes and Rosemary R. Wood

Challenges in Defining Background Levels for Human and Ecological Risk Assessments 1623

By Nancy L. Judd, James R. Karr, William C. Griffith, and Elaine M. Faustman

Consideration of Background Radiation in Ecological Risk Assessments 1633

By Linda Meyers-Schöne, N. Timothy Fischer, and Mark L. Miller

The "Reservation Effect": Implications for Background Comparisons 1639

By P.A. Clifford and D. A. Hinckley

Considerations Regarding the Use of Reference Area and Baseline Information 1645
in Ecological Risk Assessments

By R.D. Willis, R.N. Hull and L.J. Marshall

Contributed Papers

The 3MRA Risk Assessment Framework - A Flexible Approach for Performing 1655
Multimedia, Multipathway, and Multireceptor Risk Assessments Under Uncertainty

By C.M. Marin, V. Guvanasekera, and Z.A. Saleem

Technical Critique of the Multimedia, Multipathway, Multireceptor Risk 1679
Assessment Model

By Nadine Weinberg, Miranda Henning, Michael Kladias, and Marc Killingstad

Risk Analysis, Uncertainty Factors, and the Susceptibilities of Children 1701

By Sherlita N. Amler, Christopher T. DeRosa, Mildred M. Williams-Johnson, Dennis E. Jones, and Robert W. Amler

Probability and Persistence of High Pollutant Concentrations in Soils: 1713
A Modeling Study and Implications for Exposure and Risk Assessment

By Yu-Li Huang and Stuart Batterman

An Extreme Value Analysis of Pollutant Concentrations in Surface Soils 1729
Due to Atmospheric Deposition

By Yu-Li Huang and Stuart Batterman

Naturally Occurring Ah-Receptor Agonists in the Diet: Why a Vegan Diet 1747
Won't Reduce Your "Dioxin Dose"

By Kevin Connor and Brent Finley

Risk Posed by Pesticides in Aquatic Organisms in Rivers of Northern Inland 1765
New South Wales, Australia

By Monika Muschal and Michael St.J. Warne

Utilizing Mammalian Pharmacology and Safety Data to Prioritize Environmental Safety Initiatives for Human Pharmaceuticals	1789
<i>By D.B. Huggett, J.C. Cook, J.F. Ericson, and R.T. Williams</i>	

Risk Around The World

Health Risk Assessment of Lead in Korea	1801
<i>By Hyomin Lee, Eunkyung Yoon, Yoonho Choi, Gun-Young Lee, Mooki Hong, Jisum Yang, Ki-Hwa Yang, and Hyosun Shin</i>	

Happenings	1813

Perspective

Precautionary Defaults – A New Strategy for Chemical Risk Management	1
<i>By Per Sandin, Bengt-Erik Bengtsson, Åke Bergman, Ingvar Brandt, Lennart Dencker, Per Eriksson, Lars Förlin, Per Larsson, Agneta Oskarsson, Christina Rudén, Anders Södergren, Per Woin, Sven Ove Hansson</i>	

Special Issue

The Sixth Annual Meeting on Chemical-Specific Adjustment Factors	19
in Health Risk Assessment	
<i>By Mohamed S. Abdel-Rahman, Guest Editor</i>	

Chemicals and Drugs Risk Assessment

Differential Sensitivity of Children and Adults to Chemical Toxicity	21
<i>By M. Dourson, G. Charnley, R. Scheuplein, and M. Barkhurst</i>	

Some Comments on the Selection of Human Intraspecies Uncertainty Factors	29
<i>By Charles O. Abernathy, Joyce M. Donohue, John Cicmanec, and Kenneth A. Poirier</i>	

Evaluating the Relationship Between Variance in Enzyme Expression and Toxicant Concentration in Health Risk Assessment	39
<i>By John C. Lipscomb</i>	

Comparison of Risk Assessments of Boron: Alternate Approaches to Chemical-Specific Adjustment Factors	57
<i>By F. Jay Murray and Christian E. Schlekat</i>	

Predictive Bayesian Dose-Response Assessment for Appraising Absolute Health Risk from Available Information	69
<i>By James D. Englehardt</i>	

Separating Pharmacokinetic and Pharmacodynamic Components in Empirical Adjustment Factor Distributions	79
<i>By Lorenz R. Rhomberg</i>	

Effect of Variability in Pharmacokinetic Parameters on the Derivation of Exposure Limits for Pharmaceutical Compounds	91
<i>By G.M. Pastino, L.G. Sultatos, E.J. Flynn</i>	

Rationale for the Chemical-Specific Adjustment Factors Used to Derive an Occupational Exposure Limit for Timolol Maleate <i>By Bruce D. Naumann, David G. Dolan, and Edward V. Sargent</i>	99
The Role of Metabolism in Establishing Chemical-Specific Adjustment Factors for n-Hexane and Methyl -Butyl Ketone <i>By Gloria A. Skowronski and Mohamed S. Abdel-Rahman</i>	113
Microbial Risk Assessment	
Antibiotic Abuse in Animal Agriculture: Exacerbating Drug Resistance in Human Pathogens <i>By Emanuel Goldman</i>	121
Addressing Susceptibility in Microbial Pathogen Risk Assessment <i>By Rebecca T. Parkin</i>	135
A Risk Assessment Framework for Waterborne Pathogens and Requirements for Producing a Complete Protocol <i>By Stephen Schaub</i>	151
Risk Assessment of Potential Bio-Terrorism Agents for Laboratory Workers <i>By Jessica Mann and Nancy Connell</i>	159
Workshop Debate	
A National and International Debate on Same Default or Chemical-Specific Adjustment Factors for Precursor and Toxicological Endpoints <i>By Workshop Debaters</i>	167
Happenings	179

Editorial	
HERA Papers of Year 2003 <i>By Barry L. Johnson and Edward J. Calabrese</i>	181
Debate & Commentary	
Introduction: Ecological Risk Assessments at Petroleum-Contaminated Terrestrial Sites <i>By Peter M. Chapman</i>	183
Establishing Eco-SSLs for PAHs: Lessons Revealed from a Review of Literature on Exposure and Effects to Terrestrial Receptors <i>By Lawrence A. Kapustka</i>	185
Ecotoxicity Test Data for Total Petroleum Hydrocarbons in Soil: Plants and Soil-Dwelling Invertebrates <i>By Rebecca A. Efroymsen, Bradley E. Sample, and Mark J. Peterson</i>	207
Do PAHs Pose Unacceptable Ecological Risks to Terrestrial Receptors at Hazardous Waste Sites?	233

By Lawrence A. Kapustka

Approaches to Ecological Risk Characterization and Management: Selecting the Right Tools For the Job 245

By M.T. Sorensen, W.R. Gala, and J.A. Margolin

Contributed Papers

A Regional Retrospective Assessment of the Potential Stressors Causing the Decline of the Cherry Point Pacific Herring Run 271

By Wayne G. Landis, P. Bruce Duncan, Emily Hart Hayes, April J. Markiewicz, and Jill F. Thomas

Regional Ecological Risk Assessment of a Nearshore Marine Environment: Cherry Point, WA 299

By Emily Hart Hayes and Wayne G. Landis

Using Fault Tree Analysis to Assess Bioterrorist Risks to the U.S. Food Supply 327

By Bruce K. Hope

A Procedure for Ecological Tiered Assessment of Risks (PETAR) 349

By Rosana Moraes and Sverker Molander

A Simulation-Assessment Modeling Approach for Analyzing Environmental Risks of Groundwater Contamination at Waste Landfill Sites 373

By L. Liu, G.H. Huang, S.Y. Cheng, and H.C. Guo

Chemical Contamination of Aquatic Organisms from an Urbanized River in the New York/New Jersey Harbor Estuary

By Timothy J. Iannuzzi, Tina N. Armstrong, and John B. Thelen

Predictive Assessment of Fish Health and Fish Kills in the Neuse River Estuary Using Elicited Expert Judgment 389

By Mark E. Borsuk

Commentary on the Article *Predictive Assessment of Fish Health and Fish Kills in the Neuse River Estuary Using Elicited Expert Judgment* 415

By E. Conrad Lamon III

Preliminary Remediation Goals for Terrestrial Wildlife 435

By Randall Ryti, James Markwiese, Richard Mirenda, and Lars Soholt

Risk Around the World

Quantitative Assessment for Selecting the Route for a Gas Pipeline in Yucatan, Mexico 451

By Guillermo Zúñiga-Gutiérrez and Alfredo Ortega-Rubio

Arsenic Concentrations in the Surface, Well, and Drinking Waters of the Hisarcik, Turkey, Area 461

By Meltem Çöl and Cavit Çöl

Is There Quality to the Data Quality Act of 2001? 469
By Barry L. Johnson

Contributed Papers

Estimation of Dietary Intake of Inorganic Arsenic in U.S. Children 473
*By L.J. Yost, S.-H. Tao, S.K. Egan, L.M. Barraaj, K.M. Smith, J.S. Tsuji, Y.W. Lowney,
 R.A. Schoof, and N.J. Rachman*

Comparative Risk Assessment Methods and Their Applicability to Dredged Material 485
 Management Decision-Making
By Jerome J. Cura, Todd S. Bridges, and Margaret E. McArdle

An Ecological Risk Assessment Methodology for Screening Discharge Alternatives 505
 of Produced Water
By Mukhtasor, Tahir Husain, Brian Veitch, and Neil Bose

Ecological Risk Assessment for Irgarol 1051 and its Major Metabolite 525
 in United States Surface Waters
By Lenwood W. Hall, Jr. and Piero Gardinali

Risk Around the World

Plan for an Integrated Human and Environmental Risk Assessment 543
 in the S. Domingos Mine Area (Portugal)
By R. Pereira, R. Ribeiro, and F. Gonçalves

Dynamic Modeling of a Man-Land System in Response to Environmental Catastrophe 579
By Yun-feng Chen, Jie QI, Jing-xuan Zhou, Yan-ping Li, and Jie Xiao

Risk Perception, Risk-Taking Attitude and Hypothetical Behavior of Active 595
 Volcano Tourists
By Kyoko Nomura, Kazue Yamaoka, Takahiro Okano, and Eiji Yano

The Fox River Risk Assessment Teaching Tool 605
By Barbara G. Callahan

Software Review

Software Review of ToxTools for Windows (Version 1.0) 609
By Qiyu Zhao

Introduction: Defining Fish Consumption Patterns for Use in Human Health 965

Risk Assessment

By Donna J. Vorhees, Guest Editor

Overview of Fish Consumption Rates in the United States 1195

By Jacqueline Moya

Sportsfish Consumption Surveys: A Risk Assessment Practitioner's Wish List 1213

By Harlee Strauss

Contributed Papers

The U.S. Environmental Protection Agency's Generic Ecological Assessment Endpoints 967

By Glenn W. Suter II, Donald J. Rodier, Scott Schwenk, Michael E. Troyer, Patricia L. Tyler, Douglas J. Urban, Marjorie C. Wellman, and Steven Wharton

Metals that Drive Human-Based Remedial Decisions for Soils at U.S. Department 983
of Defense Sites

By Johanna H. Salatas, Yvette W. Lowney, Robert A. Pastorok, Richard R. Nelson, and Michael V. Ruby

A Weight of Evidence Analysis of the Chronic Ecotoxicity of Nonylpheno 999
Ethoxylates, Nonylphenol Ether Carboxylates, and Nonylphenol

By Charles Staples, Ellen Mihaich, John Carbone, Kent Woodburn, and Gary Klecka

Assessment of Potential Human Health Risks from Arsenic in CCA-Treated Wood 1019

By E.M. Dubé, C. Petito Boyce, B.D. Beck, T. Lewandowski, and S. Schettler

Ecological Risk Assessment of Tebuthiuron Following Application on Tropical 1069
Australian Wetlands

By R.A. van Dam, C. Camilleri, P. Bayliss, and S.J. Markich

Combined Use of Life Cycle Assessment and Groundwater Transport Modeling 1099
to Support Contaminated Site Management

By Julie Godin, Jean-François Ménard, Sylvain Hains, Louise Deschênes, and Réjean Samson

Bioaccumulation of Inorganic Chemicals from Soil by Plants: Spiked Soils 1117
Versus Field Contamination or Background

By Rebecca A. Efroymson, Bradley E. Sample, and Glenn W. Suter, II

Uncertainty Analysis of Pesticide Residues in Drinking Water Risk Assessment 1129

By Aklilu A. Tesfamichael and Jagath J. Kaluarachchi

Human Health Risk Assessment of Naturally Occurring Radioactive Materials – A Case 1155
Study for Produced Water

By Shakhawat Chowdhury, Tahir Husain, Brian Veitch, Neil Bose, and Rehan Sadiq

Sensitivity Analysis in Multicriteria Spatial Decision Making: A Review 1173

By Montserrat Gómez Delgado and Joaquín Bosque Sendra

Opening Remarks 9
Guido Tampieri

Implications of the Precautionary Principle for Public Health Practice and Research. 13
Philippe Grandjean

The Precautionary Principle, Epidemiology and the Ethics of Delay 17
Elihu D. Richter and Richard Laster (with comment by Colin Soskolne)

Some Legal Implications of the Precautionary Principle: Improving Information-Generation 29
and Legal Protections
Carl F. Cranor

On Being Careful What We Wish for: Some Difficulties with Operationalizing 53
the Precautionary Principle
David Ozonoff

The Precautionary Principle, Science and Human Health Protection 63
Marco Martuzzi and Roberto Bertollini

The Precautionary Principle: Implications for Risk Management Strategies 69
Andrea Saltelli and Silvio Funtowicz

Incorporating Science, Technology, Fairness, and Accountability in Environmental, 85
Health, and Safety Decisions

Nicholas A. Ashford

On the Even Greater Need for Precaution Under Global Change	97
<i>Colin L. Soskolne</i>	
Methodologic Implications of the Precautionary Principle: Causal Criteria	107
<i>Douglas L. Weed</i>	
Research Implications of Science-Informed, Value-Based Decision Making	115
<i>Jack Dowie</i>	
Commentary: The Role of Toxicology in Prevention and Precaution	125
<i>Ellen K. Silbergeld</i>	
Multidisciplinary Research: Strategies for Assessing Chemical Mixtures to Reduce	141
Risk of Exposure and Disease	
<i>William A. Suk and Kenneth Olden</i>	
Values, Errors, and Precautions	153
<i>Herbert L. Needleman</i>	
Negative and Non-Positive Epidemiological Studies	159
<i>Olav Axelson</i>	
Redefining the Confidence Interval	169
<i>John C. Bailar III</i>	
Underestimation of Risk Due to Exposure Misclassification	179
<i>Philippe Grandjean, Esben Budtz-Jørgensen, Niels Keiding, and Pal Weihe</i>	
The Importance of Type II Error and Falsifiability	189
<i>Hiroyuki Matsuda</i>	
The Precautionary Principle and Statistical Approaches to Uncertainty	201
<i>Niels Keiding and Esben Budtz-Jørgensen</i>	
Implications of the Precautionary Principle: Is It a Threat to Science?	209
<i>Bernard D. Goldstein and Russel S. Carruth</i>	
Commentary: Barriers and Opportunities to Changing the Research Agenda	221
to Support Precaution and Primary Prevention	
<i>Joel A. Tickner</i>	
Children as Vulnerable Population	235
<i>Philip J. Landrigan</i>	
Asbestos in Developing Countries: Magnitude of Risk and Its Practical Implications	239
<i>Tushar K. Joshi and Rohit K. Gupta</i>	
Major Concerns in Developing Countries: Applications of the Precautionary Principle	249
in Ecuador	

Raul Harari A., Rocio Freire Morales, and Homero Harari F.

Comparison of Bayesian-Utilitarian and Maximin Principle Applications 255
Pietro Comba, Marco Martuzzi, and Caterina Botti

Risk Communication and the Precautionary Principle 261
Marco Biocca

Journal of Human and Ecological Risk Assessment
Volume 11, No. 2, April 2005

Editorial

HERA Papers of Year 2004 267
Barry L. Johnson and Edward J. Calabrese

In Memorium – Dr. Davide Calamari 269

Perspective

Presenting Scientific Theories Within Risk Assessments 271
Harry Marks and Margaret Coleman

Research Articles

Climate Change Influences on Environmental and Human Health Chemical Standards 289
Mark Crane, Paul Whitehouse, Sean Comber, Julian Ellis and Rob Wilby

Review of the Potential Environmental and Human Health-Related Hazards 319
and Risks from Long-Term Exposure to p-tert-Octylphenol
J. P. Van Miller and C. A. Staples

In Vivo Estrogenicity of Nonylphenol and Its Ethoxylates in the Canadian Environment 353
È.B. Dussault, J.P. Sherry, H.-B. Lee, B.K. Burnison, D.T. Bennie and M.R. Servos

A Probabilistic Risk Assessment of the Effects of Methylmercury on Great Egrets 365
and Bald Eagles Foraging at a Constructed Wetland in South Florida
Darren G. Rumbold

A Deterministic Method for Deriving Site-Specific Human Health Assessment 389
Criteria for Contaminants in Soil
Paul Nathanail, Caroline McCaffrey, Naomi Earl, Neil D. Foster, Andrew G. Gillett, and Richard Ogden

A Critical Review of the Traditional Methodology of Cost Benefit Analysis 411
and a Proposed Alternative
Shojiro Yasui

Arsenic Ingestion and Bladder Cancer Mortality – What Do The Dose-Response 433
Relationships Suggest About Mechanism?
Steven H. Lamm and Michael B. Kruse

Risk Communications: Around the World

Assessment of Effects of Human Development on the Environment by Using 451
System Dynamic Modeling Technique (SD): A Case Study of The Mkomazi Watershed (Pangani Basin)

In Northeastern Tanzania
Nimzehirwa Kashimbiri, Yun-Feng Chen, and Jing-Xuan Zhou

Letter to Editor

Detoxifying Ecological Risk Assessment 469
Lawrence V. Tannenbaum

Happenings 473

Erratum – Correction of Table of Contents for HERA 10(6): December 2004
