

Instructions for Authors:

Asian Population Studies welcomes original scientific research in all branches of population studies and related disciplines in the context of Asia. Contributors should note that material submitted to the journal must be original, must not have already appeared in another publication and must not be submitted for publication elsewhere while under consideration by the journal. Accepted articles must conform to **Asian Population Studies** style requirements (see below). All submissions will subject to the normal process of independent peer review.

Submission. Please submit an electronic copy of your manuscript to ariaps@nus.edu.sg or if you would rather, a paper copy of your manuscript and an electronic version on disk to:

The Editor, Asian Population Studies, Asia Research Institute, National University of Singapore, 469A Tower Block 10-01 Bukit Timah Road, Singapore 259770.

The title of the paper and the author(s) name(s) and affiliation should appear at the beginning of the paper. All pages of the manuscript must be numbered. There should be an abstract not exceeding 150 words on a separate sheet, summarising the paper's scope and significant findings. Abstracts should be accompanied by up to six key words or phrases that characterise the contents of the paper. Manuscripts should normally be between 6000 and 8000 words, including notes, references and appendices. Spelling should follow UK English conventions. All manuscripts should include full correspondence details (street address, telephone, fax and email addresses) of the corresponding author.

Please make sure your contact address information is clearly visible on the outside of all packages you are sending to the Editor.

Disk submissions. Authors should send the final, revised version of their article in both hard copy (paper) and electronic (disk) forms. It is essential that the hard copy (paper) version exactly matches the material on disk. Please print out the hard copy from the disk you are sending. Submit three printed copies of the final version with the disk to the journal's editorial office. Save all files on a standard 3.5-inch high-density disk. We prefer to receive disks in Microsoft Word (PC format), but can translate from most other common word-processing programs as well as Macs. Please specify which program you have used. Do not save your files as "text only" or "read only".

Tables and figures. Tables must be typed on separate sheets and not included at part of the text. The captions to illustrations should be gathered and typed on a separate sheet. Tables and figures should be numbered consecutively in the order in which they are referred to in the text by Arabic numerals. The approximate position of tables and figures should be indicated in the paper.

Please supply clear copies of artwork (preferably the originals) for figures in a finished format suitable for reproduction. Figures should be drawn in black drawing ink on good quality white paper or board. The lettering should be large enough to allow the necessary reduction in size for printing. The publisher will normally reproduce colour figures in black and white. Figures will not normally be redrawn by the publisher. The author(s) must arrange permission for the reproduction of illustrations and tables within articles. Figures may be sent electronically, preferably in either TIFF (tagged image format) or EPS (encapsulated Postscript) formats. However, we can also accept PICT or JPEG formats.

References. The Harvard referencing system is used. References should be indicated in the text by the name and date system: either "Recent work (Smith, 1984)..." or "Recently Smith (1984, p. 22)..." If more than three authors are listed, cite the reference as "Smith et al. (1984)..." If no person is named as author, the name of the appropriate body should be used: e.g. (National Bureau of Statistics of China, 2003). References should be collected and typed at the end of the paper in alphabetical order according to the first author. They should be complete in all details, including article, book and journal titles in full.

Early Electronic Offprints: Corresponding authors can now receive their article by e-mail as a complete PDF. This allows the author to print up to 50 copies, free of charge, and disseminate them to colleagues. In many cases this facility will be available up to two weeks prior to publication. Or, alternatively, corresponding authors will receive the traditional 50 offprints. A copy of the journal will be sent by post to all corresponding authors after publication. Additional copies of the journal can be purchased at the author's preferential rate of £15.00/\$25.00 per copy.

Copyright. It is a condition that authors vest copyright in their articles, including abstracts, in Taylor & Francis Ltd. This enables us to ensure full copyright protection and to disseminate the article, and the journal, to the widest possible readership in print and electronic formats as appropriate. Authors may use their article elsewhere after publication provided that prior permission is obtained from Taylor & Francis Ltd. Authors are themselves responsible for obtaining permission to reproduce copyright material from other sources.
