nouns only; bold; flushed left; NB do not indent if text runs on to additional lines.

Table 2 Demographic characteristics and exercise assessment
Table 3 Age of cases and duration of symptoms before therapy in the three categories

Table:
Either text-width or column-width
Top and bottom rules: [xpt] rule [pls match line weights from old ULT table design]
Other rules: [0.xx pt]
Table text: Match font of abstract (see above);
Columns of text:
Column heading and column content: Aligned left;
Columns of numbers:
Column heading and column content: centred; decimal points to be the centre; decimal points are on the line. Where a range is displayed centre along the en-rule or forward slash (etc.)
Columns of numbers and text;
Column heading and column content; Aligned left

Table captions
Aligned left; ‘Source:’/’Note:’ Sig Caps, followed by colon then text run on.

Figures
Cite as ‘Fig. 1’ or Fig. 1A and B or Figs. 2 and 3
Figures should be set where possible at text-width; centred;
Figure Captions
Figure headings appear underneath figure.
[Figure 1] [indent] [Fig caption]
[Figure no] bold, flushed left; NB no punctuation after figure number. Do not indent caption if text runs on to additional lines. End with punctuation.
Figure 1 Metamaterials have feature sizes as or smaller than the wavelengths of interest.
If fig is multi-part please use capital letters in brackets to denote each part (see below). If possible this should precede the description.
Figure 1 Projected images of the jaw 10 years from now (A) post-operation (B) without surgery

Permissions statement for third-party figure and table captions
If the rightsholder has supplied text for this purpose, use their text. Otherwise, insert the rightsholder’s name within the square brackets:
© [Rightsholder]. Reproduced by permission of xxx. Permission to reuse must be obtained from the rightsholder.
[Note: this should not be in italic.]

Displayed quotations
Indented left and right, smaller font (over 40 words, or when appropriate)

Lists
Bulleted lists
Start lower case, semi-colon after each entry, then full point
Number lists
Only use number lists if manuscript specifically requires it, for all else use bullets.

[Numbers] Colon at end of text to signify start of list; number followed by full point; Roman; sig caps and ABRV only; all lower case; run on to next point; semi colon after each; full stop at end only. Cite in text as (1), (2) etc.

The possible methods of extraction were:
1. to give the tooth a good tug;
2. to tie a string around the tooth and door handle and wait for a friend to open it;
3. chewing of chewy sweets

[Roman numerals] run on from text without punctuation; indented left; numeral in brackets (ii) (iv); sig caps and ABRV only; all lower case; run on to next point; comma after each entry; full stop at end only.

The possible methods of extraction were:
(i) to give the tooth a good tug;
(ii) to tie a string around the tooth and door handle and wait for a friend to open it;
(iii) chewing of chewy sweets

**Spelling preferences**

- The titles of journals should be abbreviated as they appear in the MEDLINE Journals Database.
- Measurements of length, height, weight, and volume should be reported in metric units (meter, kilogram or liter) or their decimal multiples.
- Temperatures should be in degrees Celsius.
- Scientific measurements should be given in SI units, except for blood pressure, which should be expressed in mm Hg.
- Raw numbers should be given alongside percentages, and as supporting data for P values.
- For P values use the uppercase roman P (P<0.05).

**Punctuation**

- Initialisms (e.g. BBC) do not have full points between them.
- Use full points in abbreviations, e.g. U.S.A or B.B.C.
- Non-spaced initials in text, e.g. J.S. Smith.
- Ellipsis spaced before and after.

**Dashes**

- Non-spaced em rules for parenthetical dashes
- Use en rule between spans of numbers (e.g. 20–40), including page numbers in references

**Numbers and units**

- One to ninety-nine, 100, 200, 1000, 10,000
- One-third
- 1000 km
- One – nine; 10; 100; 1000; 9999; 10 000; 100 000; 10 000 000 etc.

**Dates**

- US: October 24 2013

**Contents page**
