Journals from Taylor & Francis

Taylor & Francis is dedicated to the dissemination of scholarly information, utilising skills and expertise honed since we first began publishing learned journals in 1798. Today, we publish 1,600 scholarly journals in association with 460 societies and institutions. Our publishing team is truly international. With a network of 20 global offices – including Philadelphia, Oxford, Melbourne, Beijing, New Delhi, Stockholm, Johannesburg and Singapore – we can provide local support around the globe.

Our Plant Sciences journals portfolio continues to be edited by many of the world's leading academics in the field, and we enjoy strong relationships with a great number of learned societies on whose behalf we publish.

We are proud to publish journals in partnership with many prestigious learned societies, including the British Phycological Society, Botanical Society of Scotland, Scandinavian Palynological Collegium, Japanese Society for Soil Science and Plant Nutrition, Canadian Phytopathological Society, to name but a few.

### Acta Botanica Gallica Botany Letters

Journal of the Société  
Botanique de France

New to  
Taylor & Francis  
for 2012

Editor-in-Chief: **Elisabeth Dodinet**, *Ecole des Hautes Etudes en Sciences Sociales (EHESS), Toulouse, France*

Volume 159, 2012, 4 issues per year

*Acta Botanica Gallica* is an international scientific journal, published on behalf of the French Botanical Society (Société Botanique de France). The journal publishes innovative peer-reviewed research articles on a wide range of subjects, including articles dealing with all photosynthetic organisms, or any taxa described in their interactions with photosynthetic organisms. All organization levels are accepted, with a particular interest in multidisciplinary papers. Articles can be published in French (with an extended English abstract) or in English (with abstract in French).

### Archives of Phytopathology and Plant Protection

Increase  
in pages for  
2012

Editor-in-Chief: **Theo Wetzel**, *Integrierter Pflanzenschutz und Ökosysteme, Germany*

Volume 45, 2012, 20 online and 4 print issues per year

*Archives of Phytopathology and Plant Protection* publishes original papers and reviews covering all scientific aspects of modern plant protection. Subjects include phytopathological virology, bacteriology, mycology, herbal studies and applied nematology and entomology as well as strategies and tactics of protecting crop plants and stocks of crop products against diseases.

### Biocontrol Science and Technology

Editor-in-Chief: **Mark S. Goettel**, *Lethbridge Research Centre, Agriculture & Agri-Food Canada, Canada*

Volume 22, 2012, 12 online and 6 double print issues per year

*Biocontrol Science and Technology* presents original research and reviews in the fields of biological pest, disease and weed control. Areas covered by the journal include: animal pest control by natural enemies, biocontrol of plant diseases, 'classical' biocontrol, conservation and enhancement of natural enemy populations, microbial pesticides, natural enemy production, formulation, distribution and release methods and environmental impact studies.

### Biodiversity

Official Publication of the Tropical  
Conservancy Organization

Editor-in-Chief: **Glenn Lewis**, *Tropical Cons., Canada*  
Managing Editor: **Stephen Aitken**, *Tropical Cons., Canada*

Volume 13, 2012, 4 issues per year

The aim of *Biodiversity* is to raise an appreciation and deeper understanding of species, ecosystems and the interconnectedness of the living world and thereby avoid the mismanagement, misuse and destruction of biodiversity. *Biodiversity* provides an international forum on all matters concerning the integrity and wellness of ecosystems and the diversity of species.

## Biological Agriculture & Horticulture

Editor: **P. J. C. Harris**, Coventry University, UK

Volume 28, 2012, 4 issues per year

*Biological Agriculture & Horticulture* aims to act as the central focus for a wide range of studies into alternative systems of husbandry, and particularly the biological approach to food production. The journal will publish work of a sound scientific or economic nature related to the many factors contributing to the development and application of biological husbandry in agriculture, horticulture and forestry, in both temperate and tropical conditions.

## Canadian Journal of Plant Pathology

Journal of the Canadian Phytopathological Society/Revue de la Société Canadienne de Phytopathologie

Editor-in-Chief: **Zamir K. Punja**, Simon Fraser University, Canada

Volume 34, 2012, 4 issues per year

The *Canadian Journal of Plant Pathology* publishes the results of scientific research and other information relevant to the discipline of plant pathology as review papers, research articles, notes and disease reports. Research articles and notes include original research that contributes to the science of plant pathology or to the practice of plant pathology, including the diagnosis, estimation, prevention, and control of plant diseases.

## Caryologia: International Journal of Cytology, Cytostystematics and Cytogenetics

New to  
Taylor & Francis  
for 2012

Published on behalf of the Dipartimento di Biologia Evoluzionistica, Università di Firenze

Editor: Prof. **Laura Maleci**, Università degli Studi di Firenze, Italy

Volume, 2012, 4 issues per year

*Caryologia* is devoted to the publication of original research and, occasionally, of reviews in plant and animal cytology, cytosystematics, cytogenetics, embryology and ultra-structure.

## Diatom Research

Journal of the International Society for  
Diatom Research

Editors-in-Chief: **Karen Serieyssol**, *France*  
**Michel Poulin**, *Canadian Museum of Nature, Canada*

Volume 27, 2012, 4 online and 2 double print issues per year

*Diatom Research* welcomes manuscripts on any aspect of diatom biology. In addition to normally structured papers, short notes and reviews of recent literature are published which need not contain all the sections required for "normal" papers. Discursive "Opinion" papers are encouraged which would not necessarily follow the normal lay-out. Papers will be accepted in English, German, French or Spanish.

## European Journal of Phycology

Official Journal of the  
British Phycological  
Society

Editors-in-Chief: **David Mann**, *Edinburgh Botanic Gardens, UK* and  
**Christine Maggs**, *Queens University Belfast, UK*

Volume 47, 2012, 4 issues per year

Publishes papers on all aspects of algae, including cyanobacteria. The Editors-in-Chief are assisted by an international team of Associate Editors who are experts in the following fields: macroalgal ecology, microalgal ecology, physiology and biochemistry, cell biology, molecular biology, macroalgal and microalgal systematics, applied phycology and biotechnology.

Five-Year Impact Factor: 1.034\*

## Grana

Official Journal of the Scandinavian  
Palynological Collegium

Editor-in-Chief: **Else Marie Friis**, *Swedish Museum of Natural History, Sweden*

Volume 51, 2012, 4 issues per year

*Grana* publishes original papers, mainly on ontogeny (morphology, and ultrastructure of pollen grains and spores of Eucaryota and their importance for plant taxonomy, ecology, phytogeography, paleobotany and aerobiology. Aerobiology involves studies of airborne biological particles, such as pollen and spores, and their launching, dispersal and final deposition. The significance of these particles in medicine (allergology) and plant pathology is of particular interest.

## International Journal of Pest Management

Editor: **Mark A. Jervis**, *Cardiff University, UK*

Volume 58, 2012, 4 issues per year

*International Journal of Pest Management* covers the following scientific topics: control of pests (invertebrates, vertebrates, weeds) and diseases of plants, fungi and their products – including biological control in all of its aspects, cultural control, varietal control, chemical control, interference methods. Another feature is the publication of taxonomic keys and diagnostic tools for the identification of pests and control agents of major economic importance.

## International Journal of Phytoremediation

The official journal of the Association for Environmental Sciences (AEHS) and International Phytotechnology Society (IPS)

Co-Editor-in-Chief: **Stephen Ebbs**, *Southern Illinois University-Carbondale, USA* and **Lee A. Newman**,

Volume 14, 2012, 10 issues per year

The *International Journal of Phytoremediation* is the first journal devoted to the publication of current laboratory and field research describing the use of plant systems to remediate contaminated environments. Phytoremediation refers to a diverse group of green technologies that use either naturally occurring or genetically engineered plants to decontaminate polluted air, soil, and water.

## Journal of Essential Oil Research

New to  
Taylor & Francis  
for 2012

Editor-in-Chief: **Luigi Mondello**, *Universita di Messina, Messina, Italy*

Volume 24, 2012, 6 issues per year

*Journal of Essential Oil Research (JEOR)* is the major forum for the publication of essential oil research and analysis. Each issue includes studies performed on the chemical composition of some of the 20,000 aromatic plants known in the plant kingdom. *JEOR* is devoted entirely to all phases of research from every corner of the world by the experts in their field.

## Journal of Plant Interactions

Increase  
in pages for  
2012

Editor-in-Chief: **Massimo Maffei**, *University of Turin, Italy*

Volume 7, 2012, 4 issues per year

*Journal of Plant Interactions* aims to represent a common platform for those scientists interested in publishing and reading research articles in the field of plant interactions and will cover most plant interactions with the surrounding environment. The journal covers the following interactions: animal, environment, insect, microorganism, plant and soil.

## Journal of Plant Nutrition

Increase  
in pages for  
2012

Executive Editor: **Harry A. Mills**, *Athens, Georgia, USA*

Volume 35, 2012, 14 issues per year

*Journal of Plant Nutrition* is a comprehensive, convenient source of new and important findings exploring the influence of currently known essential and nonessential elements on plant physiology and growth. In addition to offering prompt publication of original research and review papers in plant and soil science, the journal includes special symposium issues that focus on essential nutrients, heavy metals, and trace elements.

## Mycology: An International Journal on Fungal Biology

Official Journal of the Mycological Society of China

Editor-in-Chief: **Xingzhong Liu**, *Chinese Academy of Sciences, China*

Volume 3, 2012, 4 issues per year

This journal aims to provide a platform to meet the needs of a demanding and growing field, and to serve and engage dialogue between Chinese mycologists and the international community. *Mycology* publishes papers on all aspects of mycology including lichens, with preference to systematics, ecology and biodiversity, genomics and proteomics, and molecular phylogeny and evolution.

## New Zealand Journal of Botany: An International Journal of Austral Botany

A Publication of the Royal Society of New Zealand

Senior Editor: **Kevin Gould**, *Victoria University of Wellington, New Zealand*

Volume 50, 2012, 4 issues per year

The *New Zealand Journal of Botany* plays an important role in disseminating field-based, experimental, and theoretical research to researchers on all aspects of the botany, mycology, and phycology of the region. We welcome submissions on all aspects of the botany, mycology, and phycology of the South Pacific, Australia, South America, and southern Africa. No page charges.

## New Zealand Journal of Crop and Horticultural Science

A Publication of the Royal Society of New Zealand

2010 Impact Factor: **0.247\***  
Five-Year Impact Factor: **0.397\***

Senior Editor: **David Penman**, *Landcare Research, New Zealand*

Volume 40, 2012, 4 issues per year

The *New Zealand Journal of Crop and Horticultural Science* plays an important role in disseminating information to researchers in universities, research institutes, and other centres, on all aspects of the production, protection, handling, and processing of temperate crop and horticultural products of relevance to the Australasian region. No page charges.

### Plant Biosystems:

An International Journal dealing with all aspects of Plant Biology

Official Journal of the Società Botanica Italiana

Editor-in-Chief: **Carlo Blasi**, *University of Rome "La Sapienza", Italy*

Volume 146, 2012, 4 issues per year

*Plant Biosystems* is open to papers dealing with all aspects of plant biology, systematics, and ecology. Research studies containing novel and significant findings, from the molecular level to ecosystems and from micro-organisms to flowering plants, are welcome. *Plant Biosystems* succeeded *Giornale Botanico Italiano*, the historical journal of the Società Botanica Italiana, from the year 1997.

### Plant Ecology & Diversity

Official Journal of the Botanical Society of Scotland

Editor: **Laszlo Nagy**, *INPA - Instituto Nacional de Pesquisas da Amazônia, Brazil*

Volume 5, 2012, 4 issues per year

*Plant Ecology & Diversity* covers all areas of plant biology relating to ecology, evolution and diversity, including those which explicitly deal with today's highly topical themes, such as biodiversity, conservation and global change. Submissions concerning cold environments world-wide are particularly welcome. Unique to *Plant Ecology & Diversity* is its Scottish section, publishing contributions on aspects of botany and plant ecology particular to Scotland.

### Acta Agriculturae Scandinavica, Section B - Soil & Plant Science

Published on behalf of the Nordic Association of Agricultural Scientists (NJF)

Editor-in-Chief: **Anna Mårtensson**, *Swedish University of Agricultural Sciences, Sweden*

Volume 62, 2012, 8 issues per year

*Acta Agriculturae Scandinavica, Section B - Soil & Plant Science* publishes original research in soil and plant science with special attention given to applied questions related to biological production. Topics of relevance include: environmental considerations, quality assessment, crop production systems, plant fitness, land and water management and plant breeding. This journal forms part of a trilogy of titles published on behalf of the Nordic Association of Agricultural Scientists (NJF).

### Archives of Agronomy and Soil Science

Increase in frequency for 2012

Editor-in-Chief: **Heidrun Beschow**, *Martin Luther University, Germany*

Volume 58, 2012, 8 issues per year

*Archives of Agronomy and Soil Science (AASS)* is a well-established journal that has been in publication for over thirty years. The journal publishes papers original contributions and current reviews over the entire range of agronomy and soil science. All published research articles in this journal have undergone rigorous peer review, based on initial editor screening and anonymous refereeing by independent expert referees.

## Soil and Sediment Contamination

The Official Journal of The Association for Environmental Health and Sciences (AEHS)

Editors-in-Chief: **James Dragun**, Dragun Corporation School of Public Health, USA and **Paul Kostecki**, AEHS Foundation, Inc., USA

Volume 21, 2012, 8 issues per year

When it comes to assessing and mitigating contaminated soils and sediment efficiently and cost-effectively, there is no substitute for having the very latest tools, techniques, and methodologies at your fingertips. This is just the kind of essential expertise you'll only find in *Soil and Sediment Contamination*. This internationally peer-reviewed publication focuses on contamination from sludges, petroleum, petrochemicals, chlorinated hydrocarbons, pesticides, and lead and other heavy metals.

## Forest Science

2010 Impact Factor: 0.262\*

### African Journal of Range & Forage Science

Co-published by NISC and Taylor & Francis in association with the Grassland Society of Southern Africa

Editors: **Susanne Vetter**, Rhodes University, South Africa and **Freyndu du Toit**, Grassland Society of Southern Africa, South Africa

Volume 29, 2012, 3 issues per year

*African Journal of Range & Forage Science* is the leading rangeland and pastoral journal in Africa. The journal is dedicated to publishing quality original material that advances rangeland ecology and pasture management in Africa. Contributions reporting on research not done in Africa, which is applicable in Africa, are welcome. The journal promotes both science and its application and authors are encouraged to explicitly identify the practical implications of their work.

### Arbicultural Journal: The International Journal of Urban Forestry

Official journal of the  
Arbicultural Association

New to  
Taylor & Francis  
for 2012

Editor: **Ian R. Rotherham**, Sheffield Hallam University, UK

Volume 34, 2012, 4 issues per year

*Arbicultural Journal: The International Journal of Urban Forestry* accepts contributions on subjects connected with arboriculture, forestry and horticulture (in an arbicultural context) and landscape design. Submissions may include original research papers, review or survey articles dealing with progress in a branch science relevant to arboriculture and notes and comments on matters likely to have an immediate impact on the advancement of arboriculture.

### Forest Science and Technology

Official publication of the Korean  
Forest Society

Editor-in-Chief: **Su-Young Woo**, University of Seoul, Korea

Volume 8, 2012, 4 issues per year

*Forest Science and Technology* is an international journal publishing original research articles and reviews. Papers will deal with all aspects of forest science including: silviculture, physiology, and genetics forest operations engineering and management, forest assessment modelling and management, forest products, social, economic, information and policy sciences, forest health, forest environment

[www.tandfonline.com/tfst](http://www.tandfonline.com/tfst)

### Forests, Trees and Livelihoods

New to  
Taylor & Francis  
for 2012

Editor: **Hubert de Foresta**, France

Volume 47, 2012, 4 issues per year

*Forests, Trees and Livelihoods* originated in 1979 under the title *International Tree Crops Journal* and adopted its new name in 2001 in order to reflect its emphasis on the diversity of tree based systems within the field of rural development. This peer-reviewed international journal publishes comments, reviews, case studies, research methodologies and research findings and articles on policies in this general field.

## Journal of Sustainable Forestry

Editor: **Graeme P. Berlyn**, Yale University, USA

Volume 31, 2012, 8 issues per year

*The Journal of Sustainable Forestry* provides a linkage of silviculture and its underlying biology: tree physiology, morphology, and genetics. The journal highlights the scientific principles and techniques of controlling, protecting, and restoring the regeneration, composition, and growth of natural forest vegetation as well as plantations, agroforestry, and silvo-pastoral systems.

## Southern Forests: a Journal of Forest Science

Co-published by NISC and Taylor & Francis for the Southern African Institute of Forestry (SAIF)

Editor-in-Chief: **A.R. Morris**, Sappi, Shaw Research Center, KZN

Volume 74, 2012, 4 issues per year

*Southern Forests: a Journal of Forest Science* is one of the leading forestry journals in the Southern Hemisphere. The journal publishes scientific articles in forest science and management of fast-growing, planted or natural forests in the Southern Hemisphere and the tropics. Papers are also encouraged on related disciplines such as environmental aspects of forestry, social forestry, agroforestry, forest engineering and management as well as the goods and services that are derived from forests as a whole.
