

## Production Planning & Control

The Management of Operations

EDITOR:  
**Stephen J. Child**, University of Exeter, UK  
Volume 20, 2009, 8 issues per year ISSN Print: 0953-7287 ISSN Online: 1366-5871

**Production Planning & Control** is an international journal that brings together research papers on all aspects of production planning and control and the management of operations in all industries. The Journal focuses on research that stems from an industrial need and can guide the activities of managers, consultants, software developers and researchers. It publishes accessible articles on research and industrial applications, new techniques and development trends.

## Quality Engineering®

An Official Journal of the American Society for Quality

EDITOR-IN-CHIEF:  
**Geoffrey Vining**, Virginia Polytechnic Institute and State University, USA  
Volume 21, 2009, 4 issues per year ISSN Print: 0898-2112 ISSN Online: 1532-4222

Directed to practitioners and researchers, **Quality Engineering®** is a refereed journal devoted to the publication of original quality engineering solutions. The Journal aims to promote a rich exchange among the quality engineering community by publishing papers that describe new methods ready for immediate industrial application or examples of techniques uniquely employed. **Quality Engineering®** contains the latest research on quality control, design and analysis of experiments, reliability engineering, six sigma methods, and process optimization.

## The International Review of Retail, Distribution and Consumer Research

EDITORS:  
**Leigh Sparks**, University of Stirling, UK  
**John A. Dawson**, University of Edinburgh, UK  
Volume 19, 2009, 5 issues per year ISSN Print: 0959-3969 ISSN Online: 1466-4402

**The International Review of Retail, Distribution and Consumer Research** is concerned with advancing knowledge and understanding about retailing. It provides a forum for the publication of high quality and original research across the field of retailing and distribution. **The Review** adopts an international perspective that reflects the multi-national nature of the distribution sector and of the paradigm of its study. It is international in scope and content, it publishes articles of a conceptual, theoretical and empirical nature. Quality is maintained by rigorous double-blind review by an international panel of research scholars.

## Total Quality Management & Business Excellence

FOUNDING EDITOR:  
**Gopal K. Kanji**, Kanji Quality Culture, UK  
Volume 20, 2009, 12 issues per year ISSN Print: 1478-3363 ISSN Online: 1478-3371

**Total Quality Management & Business Excellence** is an international journal which sets out to stimulate thought and research in all aspects of total quality management and to provide a natural forum for discussion and dissemination of research results. The Journal is designed to encourage interest in all matters relating to total quality management and is intended to appeal to both the academic and professional community working in this area.

## Virtual and Physical Prototyping

Endorsed by the Global Alliance of Rapid Prototyping Associations

EDITORS-IN-CHIEF:  
**Paulo Jorge da Silva Bártolo**, Polytechnic Institute of Leiria, Portugal  
**Chee Kai Chua**, Nanyang Technological University, Singapore

Volume 4, 2009, 4 issues per year ISSN Print: 1745-2759 ISSN Online: 1745-2767

**Virtual and Physical Prototyping** aims to provide an international forum for professionals and academics to exchange novel ideas and disseminate knowledge covering the full range of activities related to virtual and rapid prototyping.

## Taylor & Francis Group Online Services

### informaworld

A world of specialist information for the academic, professional and business communities. To find out more go to:  
[www.informaworld.com](http://www.informaworld.com)

### Alerting services from informaworld

To sign up for table of contents, new publication and citation alerting services from informaworld visit:  
[www.informaworld.com/alerting](http://www.informaworld.com/alerting)

### Online Access

Online access is included with a print institutional subscription to any journal or alternatively is available as an online only option. For further information connect to:  
[www.informaworld.com/online](http://www.informaworld.com/online)

### Online Sample Copies

Fully searchable sample copies of these journals are available by visiting [www.informaworld.com](http://www.informaworld.com)

### Librarians' Area

Visit our web resource for Librarians and Information Professionals at:  
[www.tandf.co.uk/libsite](http://www.tandf.co.uk/libsite)

Register your email address at [www.tandf.co.uk/journals/eupdates.asp](http://www.tandf.co.uk/journals/eupdates.asp) to receive information on books, journals and other news within your areas of interest.

An international active reference linking service. Visit [www.crossref.org](http://www.crossref.org) for more information.

## Engineering, Computing & Technology Archive

### Discover Past Brilliance:

#### Uncover the Archive

Tired of waiting for journal back issues to arrive from the book stack? The digitised Engineering, Computing & Technology Archive, available via our online platform, informaworld™, is now available for your library to purchase. Coverage includes issues from 1996 back to volume 1, issue 1. Don't miss out on valuable research! Visit [www.tandf.co.uk/libsite/journalsarchive/engineering.asp](http://www.tandf.co.uk/libsite/journalsarchive/engineering.asp) for more information.

## Engineering, Computing & Technology Collection

The Archive is complemented by the Engineering, Computing & Technology Collection, which allows access to journal content from Taylor & Francis' manufacturing research list. It incorporates current research published between 1997 and the present day, where digitised.

More information and a full list of titles are available on [www.tandf.co.uk/libsite/journalscollections/engineering.asp](http://www.tandf.co.uk/libsite/journalscollections/engineering.asp). Interested? Tell your librarian!

# Manufacturing Research Journals from Taylor & Francis Group

## International Journal of RF Technologies: Research and Applications

Endorsed by the Global RF Lab Alliance

EDITOR-IN-CHIEF:  
**Bill Hardgrave**, University of Arkansas, USA  
Volume 1, 2009, 4 issues per year ISSN Print 1754-5730 ISSN Online 1754-5749

**International Journal of RF Technologies: Research and Applications** will establish a forum for exchanging information and research results regarding RF technology deployment, data analytics, and business value creation. Potential technologies that will be covered in the Journal include Radio frequency identification (RFID), Real time location sensing (RTLS), Near-field communication (NFC), and RF-based sensors. The Journal will publish articles that focus on how and where to capture the data (e.g. real-time, at the device, on the server etc.), present approaches for finding patterns in the data which may reveal process anomalies or areas for improvement, and examine the development and use of software related to RF technologies. All articles will focus on creating business value.

NEW FOR 2009

## Engineering Optimization

EDITOR-IN-CHIEF:  
**Andrew Templeman**, University of Liverpool, UK  
Volume 41, 2009, 12 issues per year ISSN Print 0305-215X ISSN Online 1029-0273

**Engineering Optimization** serves the large technical community concerned with quantitative and computational methods of optimization, and their application to engineering planning, design, manufacture and operational processes. The policy of the journal treats optimization as any formalized process for improvement. Algorithms for numerical optimization are therefore mainstream, but equally welcome are papers which use many of the methods of operations research, decision support, statistical decision theory, systems theory, logical inference, knowledge-based systems, artificial intelligence, information theory and processing, and all methods which can be used in the quantitative modelling of the decision-making process.

[www.informaworld.com/engopt](http://www.informaworld.com/engopt)

## Enterprise Information Systems

EDITOR-IN-CHIEF:  
**Li D. Xu**, Old Dominion University, USA  
Volume 3, 2009, 4 issues per year ISSN Print: 1751-7575 ISSN Online: 1751-7583

As the topic of Enterprise Information Systems (EIS) has an important strategic impact on global business and the world economy, there is a growing demand for research to provide insights into challenges, issues, and solutions related to the design, implementation and management of EIS. Written specifically for and by academic researchers and practitioners of EIS, this journal provides in-depth coverage of cutting-edge research and applications issues in the area of EIS. The Journal focuses on both the technical and application aspects of enterprise information systems technology, and the complex and cross-disciplinary problems of enterprise integration that arise in integrating extended enterprises in a contemporary global supply chain environment. Techniques developed in mathematical science, computer science, manufacturing engineering, and operations management used in the design or operation of enterprise information systems will also be considered.

[www.informaworld.com/eis](http://www.informaworld.com/eis)

## IIE Transactions

Official Journal of the Institute of Industrial Engineers

EDITOR-IN-CHIEF:  
**Candace A. Yano**, University of California, USA  
Volume 41, 2009, 12 issues per year ISSN Print 0740-817X ISSN Online 1545-8830

**IIE Transactions** is a refereed journal devoted to the publication of original research contributions of the highest quality. It aims to foster a rich exchange among researchers and practitioners in the industrial engineering community by publishing papers that are grounded in science and mathematics, yet motivated by engineering applications. The journal is composed of four Focused Issues: Design and Manufacturing, Operations Engineering, Quality and Reliability Engineering, and Scheduling and Logistics.

[www.informaworld.com/ie](http://www.informaworld.com/ie)

## International Journal for Computational Methods in Engineering Science & Mechanics

EDITOR-IN-CHIEF:  
**J. N. Reddy**, Texas A&M University, USA  
Volume 10, 2009, 6 issues per year Print ISSN 1550-2287 Online ISSN 1550-2295

This journal provides an interdisciplinary forum for papers dealing with mathematical models and computational methods and algorithms for the numerical simulation of natural processes arising in applied science and mechanics. Special emphasis is placed on both upstream and applied research and on the transfer of technology to industry in the areas of fluid mechanics, heat transfer, solid and structural mechanics in the disciplines of aerospace, chemical, civil, mechanical, electrical engineering, and computational biology, chemistry, and materials science.

[www.informaworld.com/ucme](http://www.informaworld.com/ucme)

## International Journal of Computer Integrated Manufacturing

EDITOR-IN-CHIEF:  
**Stephen Newman**, University of Bath, UK  
Volume 22, 2009, 8 issues per year ISSN Print: 0951-192X ISSN Online: 1362-3052

The **International Journal of Computer Integrated Manufacturing (IJM)** is a journal of new knowledge, reporting research and applications, underlining the opportunities and limitations of CIM, and demonstrating how new technology can be developed and used in specific manufacturing situations. The Journal publishes papers on topics as diverse as product design and process planning, next generation manufacturing systems, customized manufacturing, eTransition and distribution scheduling and focused issues covering regional research.

[www.informaworld.com/ijcm](http://www.informaworld.com/ijcm)

## International Journal of Fashion Design, Technology and Education

EDITOR:  
**Kristina Shin**, The Hong Kong Polytechnic University, China  
CO-EDITOR:  
**Xiaoming Tao**, The Hong Kong Polytechnic University, China  
Volume 2, 2009, 3 issues per year Print ISSN: 1754-3266 Online ISSN: 1754-3274

**International Journal of Fashion Design, Technology and Education** aims to provide a high quality peer-reviewed forum for research in fashion design, pattern cutting, apparel production, manufacturing technology and fashion education. The Journal will encourage interdisciplinary research and the development of an academic community which will share newly developed technology, theory and techniques in the fashion and textile industries, as well as promote the development of excellent education practice in the clothing and textile fields.

[www.informaworld.com/ijfdte](http://www.informaworld.com/ijfdte)

NEW FOR 2008

## International Journal of Logistics: Research and Applications

Official Journal of the Logistics Research Network

EDITOR-IN-CHIEF:  
**Tony Whiteing**, University of Leeds, UK  
Volume 12, 2009, 6 issues per year ISSN Print: 1367-5567 ISSN Online: 1469-848X

**International Journal of Logistics: Research and Applications** publishes original and challenging work that has a clear applicability to the business world. As a result the Journal concentrates on papers of an academic journal standard but aimed at the practitioner as much as the academic. In this context the term 'logistics' is taken in its broadest context as "the management of processes, flow of materials and associated information along the entire supply chain, from raw materials through to the final user of the product". The Journal covers all aspects of logistics and supply chain management.

[www.informaworld.com/ijol](http://www.informaworld.com/ijol)

## International Journal of Production Research

Official Journal of the International Foundation for Production Research

EDITOR:  
**J. E. Middle**, Loughborough University, UK  
Volume 47, 2009, 24 issues per year ISSN Print: 0020-7543 ISSN Online: 1366-588X

**International Journal of Production Research (IJPR)** is a well-established and highly successful journal reporting production and manufacturing research. *IJPR* includes papers on manufacturing technology and the fundamental behaviour of production resources, and also the complex and cross-disciplinary problems of analysis and control that arise in combining these resources within the design of production systems.

[www.informaworld.com/ijpr](http://www.informaworld.com/ijpr)

## International Journal of Sustainable Engineering

EDITOR-IN-CHIEF:  
**Shahin Rahimifard**, Loughborough University, UK  
CO-EDITOR:  
**Allen Clegg**, Loughborough University, UK

Volume 2, 2009, 4 issues per year ISSN Print: 1939-7038 ISSN Online 1939-7046

The **International Journal of Sustainable Engineering** is predicated on the need for engineers to have access to a source of information and an opportunity to share, through publication, new ideas and solutions for sustainable development. Researchers from both academia and industry are invited to submit papers on their recent research into problems related to reducing the environmental impacts of engineered systems, processes and products. The International Journal of Sustainable Engineering also welcomes papers that include economic and social components that complement the engineering dimension, consider the management of sustainable engineering, or address the modelling of sustainable engineering solutions.

[www.informaworld.com/sustainable-engineering](http://www.informaworld.com/sustainable-engineering)

NEW FOR 2008

## Journal of Engineering Design

EDITOR-IN-CHIEF:  
**Alex Duffy**, University of Strathclyde, UK  
Volume 20, 2009, 6 issues per year ISSN Print 0954-4828 ISSN Online 1466-1837

**Journal of Engineering Design** is an international publication that provides an essential forum for dialogue on insightful issues across all disciplines and aspects of the design of engineered products and systems. The Journal publishes pioneering best industrial practice as well as authoritative research, studies and review papers on the underlying principles of design, its management, practice, techniques and methodologies.

[www.informaworld.com/jed](http://www.informaworld.com/jed)

## Machining Science and Technology

EXECUTIVE EDITOR:  
**S. Jahanmir**, MITI Heart Corporation, Gaithersburg, USA  
Volume 13, 2009, 4 issues per year ISSN Print: 1091-0344 ISSN Online: 1532-2483

**Machining Science and Technology** publishes original scientific and technical papers and review articles on topics related to machining and traditional and nontraditional machining processes performed on all materials-metals, polymers, ceramics, and composites. In addition, this high-quality journal covers novel concepts for machining of advanced materials; measurement of surface quality and metrology including detection and characterization of machining damage; special cutting tools, coated inserts, new grinding wheels, special coolants, and cutting fluids; and design and implementation of in-process sensors for monitoring and control of surface quality and integrity.

[www.informaworld.com/lmst](http://www.informaworld.com/lmst)

## Materials and Manufacturing Processes

EDITORS:  
**T. S. Sudarshan**, Materials Modification, Inc., Fairfax, USA  
**T. S. Srivatsan**, The University of Akron, USA  
Volume 24, 2009, 8 issues per year ISSN Print: 1042-6914 ISSN Online: 1532-2475

**Materials and Manufacturing Processes** deals with issues that result in better utilization of raw materials and energy, integration of design and manufacturing activities requiring the invention of suitable new manufacturing processes and techniques, unmanned production dependent on efficient and reliable control of various processes including intelligent processing, introduction of new materials in industrial production necessitating new manufacturing process technology, and more.

[www.informaworld.com/mamp](http://www.informaworld.com/mamp)

FREQUENCY INCREASE!

## Mechanics Based Design of Structures and Machines

EDITOR:  
**Steven A. Velinsky**, University of California, USA  
Volume 37, 2009, 4 issues per year ISSN Print: 1539-7734 ISSN Online: 1539-7742

**Mechanics Based Design of Structures and Machines** contains analytical, numerical, and experimental contributions of permanent interest to research engineers. In addition to classical applications such as structures and machine analysis and design, the Journal encourages submission of new fundamental and interdisciplinary contributions of mechanics and mechanics-based design in emerging application areas such as robotics, automotive, space structures, smart structures, and micromachines.

[www.informaworld.com/lmbd](http://www.informaworld.com/lmbd)

## Minerals & Energy - Raw Materials Report

EDITOR:  
**Robert Lundmark**, Luleå University of Technology, Sweden  
Volume 24 2009, 4 issues per year Print ISSN 1404-1049 Online ISSN 1651-2286

**Minerals & Energy - Raw Materials Report** focuses on international, multidisciplinary issues related to the production of minerals and energy and to improve the understanding for economic, social, environmental and political implications of natural resources in general.

The journal aims to be a platform for academics, practitioners, experts and civil servants who are working in fields covering minerals and energy issues and to share their perspectives and knowledge.

[www.informaworld.com/minerals](http://www.informaworld.com/minerals)
