

Polar Geography Sessions Call for Papers:

POLAR GEOGRAPHIES: Social and Environmental Systems in the Polar Regions

Polar Regions remain at the center of attention among geographers and general public due to unprecedented environmental, economic, and political changes they are presently experiencing. AAG Polar Geography affinity group is organizing a series of sessions devoted to human and physical polar geographies. *The sessions invite papers examining any aspect of the human, physical, cultural, political, or environmental geography of the Polar Regions.*

Submissions focusing on any area of the Arctic, pan-Arctic, or Antarctica are welcome. Submissions from students and young scholars are encouraged. Presenters are not limited to geographers and interdisciplinary research is encouraged. If you wish to be included in one of these sessions, please register at the AAG website and send your PIN to the session organizers. Please feel free to contact the session organizers with any ideas or questions. The deadline for submission of the panels is September 28th, 2011, so we would greatly appreciate it if you could **please send your abstracts and PINs by September 6th, 2011** so that we have time to organize the papers into sessions.

Send inquiries and abstracts to: andrey.petrov@uni.edu or heleniak@umd.edu

Sessions' co-sponsors:

AAG: Polar Geography SG, Russia, Eurasia, and Eastern Europe SG, Canadian Studies SG, Cryosphere SG.
