Quality in Higher Education
Edited by Professor Lee Harvey, Sheffield Hallam University
ISSN 1353-8322 (print) ISSN 1470-1081 (online)

Quality in Higher Education is an international refereed journal aimed at those interested in the theory, practice and policies relating to the control, management and improvement of quality in higher education. The journal publishes studies that use hermeneutic, semiotic, ethnographic or dialectical research as well as the more traditional studies based on quantitative surveys and in-depth interviews and focus groups.

The editor invites original contributions on:

- the impact of quality processes on higher education institutions, particularly the impact on learning and teaching
- how to assure international/cross border higher education provision
- the theorising of quality in higher education and papers that make use of innovative, critical dialectical analyses to set the quality debate in a wider socio-political context.

Articles and papers should be addressed to:
