# Coal Preparation

A Multinational Journal

Coal Preparation is now Indexed in ISI!

## New Editor!

**Editor-in-Chief: Gerald Luttrell**

*Department of Mining & Minerals Engineering, Virginia Tech*

**Coal Preparation** publishes original research papers, short communications, review articles, book reviews, and symposium announcements covering all aspects of coal preparation. The journal is significant reading for all individuals involved with coal preparation, including those in operations, engineering, management, education, and scientific research.

Topics include:

- Coal properties and petrography
- Coal quality and characterization
- Surface chemistry of coal and minerals
- Crushing, grinding and liberation
- Coal screening and classification
- Dense medium and density separations
- Coal utilization and blending
- Flocculation and thickening
- Process control and optimization
- Froth flotation and oil agglomeration
- Briquetting and pelletizing
- Coal handling and storage
- Waste disposal and pollution
- Dewatering and thermal drying

Additional subjects covered by the journal include properties of coal/water and coal/oil slurries as well as the processing of oil shales and tarsands by physical and physicochemical methods.

For further information on the journal, its many related societies, and upcoming events, go to

An online sample copy is available by visiting: <http://www.tandf.co.uk/journals/onlinesamples.asp>.

### ***Instructions for Authors***

Please submit papers to Gerald Luttrell, Department of Mining and Minerals Engineering, Virginia Tech, 100 Holden Hall, Blacksburg, VA, 24061, Email: [luttrell@vt.edu](mailto:luttrell@vt.edu).

Authors are strongly encouraged to submit manuscripts on disk. The disk should be prepared using MS Word or WordPerfect. A hardcopy printout that exactly matches the disk must be supplied. A complete list of instructions for the preparation of manuscripts is available on the journal's website, <http://www.tandf.co.uk/journals/titles/07349343.asp>.
