## Why submit your article to *Plant Ecology & Diversity*?

### Wide dissemination

Through excellent international reach, both in print and online, publishing in *Plant Ecology & Diversity* ensures that your article is seen, read and cited by your research community.

*Plant Ecology & Diversity* is also indexed in the ISI Web of Knowledge.

### Fast and professional peer review

All research articles in *Plant Ecology & Diversity* undergo a stringent peer review process, based on initial editor screening and double-blind refereeing by at least two undisclosed referees.

### Rapid publication

Papers published online within 6 weeks from acceptance.

### Author support from Taylor & Francis

The author services department at Taylor & Francis aims to enhance your publishing experience and to optimise the impact of your article in the global research community. Support is available, from preparing and submitting your article, through to setting up citation alerts post-publication.
