We are pleased to announce the following papers published in *Optimization Methods & Software* are the most cited papers published in the Journal between 2000-2008.

*A projected gradient algorithm for solving the maxcut SDP relaxation*  
by S Burer and RDC Monteiro, published in 2001, volume 15, issues 3-4, pages 175-200

*Error estimates for linear-quadratic control problems with control constraints*  
by A Rösch, published in 2006 volume 21, issue 1, pages 121-134

*Effect of dimensionality on the Nelder-Mead simplex method*  
by LX Han and M Neumann, published in 2006, volume 21, issue 1, pages 1-16

*PENNON: a code for convex nonlinear and semidefinite programming*  
by M Kocvara and M Stingl, published in 2003, volume 18, issue 3, pages 317-333

*Multiple criteria linear programming approach to data mining: Models, algorithm designs and software development*  
by G Kou, XT Liu, Y Peng et al., published in 2003, volume 18, issue 4, pages 453-473

*Solving mathematical programs with complementarity constraints as nonlinear programs*  
by R Fletcher and S Leyffer, published in 2004, volume 19, issue 1, pages 15-40

*Numerical methods for optimal control problems in design of robust optimal experiments for nonlinear dynamic processes*  
by S Korkel, E Kostina, HG Bock, et al., published in 2004, volume 19, issues 3-4, pages 327-338

*Scaled memoryless BFGS preconditioned conjugate gradient algorithm for unconstrained optimization*  
by N Andrei, published in 2007, volume 22, issue 4, pages 561-571

*A classification method based on generalized eigenvalue problems*  
by MR Guarracino, C Cifarelli, O Seref, et al., published in 2007, volume 22, issue 1, pages 73-81
