**[Applications and implications of nanotechnologies for the food sector](#)**

**Authors:** Qasim Chaudhry ; Michael Scotter; James Blackburn; Bryony Ross; Alistair Boxall, Laurence Castle; Robert Aitken ;Richard Watkins

Taken from [issue 3](#) of [volume 25](#) this paper is a review of the current and projected nanotechnology-derived food ingredients, food additives and food contact materials. The review has shown that nanotechnology-derived food and health food products are set to grow worldwide and, moreover, a variety of food ingredients, additives, carriers for nutrients/supplements and food contact materials is already available in some countries.
