

[International Journal of Remote Sensing](#)
[An official journal of the Remote Sensing and Photogrammetry Society](#)

2006 Impact Factor: 0.980 in ISI JCR 2007

Ranking: 7/11 (Remote Sensing); 5/11 (Imaging Science & Photographic Technology) in ISI JCR 2007

From 2008, Volume 29, Issue 1 onwards **[International Journal of Remote Sensing](#)** will be incorporating **Remote Sensing Reviews**.

The inclusion will expand the scope of review articles and as such we encourage the submission of further quality review articles to be published in this prestigious journal.

Continuing with its core aims and scopes **[International Journal of Remote Sensing](#)** is concerned with the science and technology of remote sensing and the applications of remotely sensed data in all major disciplines. Principal topics are: data collection, analysis, interpretation and display; surveying from space, air and water platforms; sensors; image processing; use of remotely sensed data; economic surveys and cost-benefit analyses.

Submissions

Papers for consideration for peer review must be submitted via the ***International Journal of Remote Sensing's*** **[Manuscript Central site](#)**. For more information please visit the **[Instructions for Authors](#)** webpage.
