

Read the most-cited articles published in *Arid Land Research and Management* free!

Arid Land Research and Management is a common outlet and a valuable source of information for fundamental and applied research on soils affected by aridity. This journal covers land ecology, including flora and fauna, as well as soil chemistry, biology, physics, and other edaphic aspects. The journal emphasizes recovery of degraded lands and practical, appropriate uses of soils.

Top 10 Most-Cited Articles from *Arid Land Research and Management*, 2003-2007

1. D. George, B. Roundy, L. St Clair, et al., *The Effects of Microbiotic Soil Crusts on Soil Water Loss* Volume 17, Issue 2, pp. 113-125
2. D. Badia, C. Marti, *Plant Ash and Heat Intensity Effects on Chemical and Physical Properties of Two Contrasting Soils* Volume 17, Issue 1, pp. 23-41
3. D. Booth, P. Tueller, *Rangeland Monitoring Using Remote Sensing* Volume 17, Issue 4, pp. 455-467
4. D. Booth, S. Cox, C. Fifield, et al., *Image Analysis Compared with Other Methods for Measuring Ground Cover* Volume 19, Issue 2, pp. 91-100
5. X. Li, Z. Zhang, J. Zhang, et al., *Association between Vegetation Patterns and Soil Properties in the Southeastern Tengger Desert, China* Volume 18, Issue 4, pp. 369-383
6. R. Roman, C. Fortun, M. De Sa, et al., *Successful Soil Remediation and Reforestation of a Calcic Regosol Amended with Composted Urban Waste* Volume 17, Issue 3, pp. 297-311
7. L. Onyewotu, C. Stigter, A. Abdullahi, et al., *Reclamation of Desertified Farmlands and Consequences for Its Farmers in Semiarid Northern Nigeria: A Case Study of Yambawa Rehabilitation Scheme* Volume 17, Issue 1, pp. 85-101
8. K. Havstad, J. Herrick, *Long-Term Ecological Monitoring* Volume 17, Issue 4, pp. 389-400
9. J. Hilty, D. Eldridge, R. Rosentreter, et al., *Burning and Seeding Influence Soil Surface Morphology in an Artemisia Shrubland in Southern Idaho* Volume 17, Issue 1, pp. 1-11
10. J. Gillham, A. Hild, J. Johnson, et al., *Weed Invasion Susceptibility Prediction (WISP) Model for Use with Geographic Information Systems* Volume 18, Issue 1, pp. 1-12
