

Total Quality Management & Business Excellence
'Gopal Kanji Best Paper Prize'

Total Quality Management & Business Excellence and Routledge are delighted to announce a new annual prize for the best article published in the journal.

The winning article will receive additional promotion as the Best Paper and will be made openly available on the Routledge website for a limited period. The winning author will receive a free year's subscription to *Total Quality Management & Business Excellence* as well as a £500 cash prize.

How to enter

Only articles published in *Total Quality Management & Business Excellence* will be eligible for the prize and the Editorial Board Awards Committee will annually decide on a winner at the end of the year.

The 2008 Best Article Award winner will be announced in early 2009.

If you would like to submit a paper to be considered for publication in *Total Quality Management & Business Excellence*, please refer to submission instructions at www.informaworld.com/tqm

Further details of how the winner will be selected and the composition of the TQM Award Committee to follow.

Other members of the committee to be confirmed

About the Journal

Total Quality Management and Business Excellence is an international journal which sets out to stimulate thought and research in all aspects of total quality management and to provide a natural forum for discussion and dissemination of research results. The journal is designed to encourage interest in all matters relating to total quality management and is intended to appeal to both the academic and professional community working in this area.

Total Quality Management and Business Excellence is the culture of an organization committed to customer satisfaction through continuous improvement. This culture varies both from one country to another and between different industries, but has certain essential principles which can be implemented to secure greater market share, increased profits and reduced costs.

The journal provides up-to-date research, consultancy work and case studies right across the whole field including quality culture, quality strategy, quality systems, tools and techniques of total quality management and the implementation in both the manufacturing and service sectors. No topics relating to total quality management are excluded from consideration in order to develop business excellence.
