[The risk of biomaterial-associated infection after revision surgery due to an experimental primary implant infection](#)

Anton F. Engelsman, Isabel C. Saldarriaga-Fernandez, M. Reza Nejadnik, Gooitzen M. van Dam, Kevin P. Francis, Rutger J. Ploeg, Henk J. Busscher & Henny C. van der Mei

[UVC fluencies for preventative treatment of Pseudomonas aeruginosa contaminated polymer tubes](#)

Jimmy Bak, Søren D. Ladefoged, Tanja Begovic & Anne Winding

[Inhibition of Streptococcus mutans biofilm accumulation and development of dental caries in vivo by 7-epiclusianone and fluoride](#)

Ramiro M. Murata, Luciana S. Branco-de-Almeida, Eliane M. Franco, Regiane Yatsuda, Marcelo H. dos Santos, Severino M. de Alencar, Hyun Koo & Pedro L. Rosalen

[Characterisation and in vitro activities of surface attached dihydropyrrol-2-ones against Gram-negative and Gram-positive bacteria](#)

Kitty K.K. Ho, Nerida Cole, Renxun Chen, Mark D.P. Willcox, Scott A. Rice & Naresh Kumar

[Biofilms on tracheoesophageal voice prostheses: a confocal laser scanning microscopy demonstration of mixed bacterial and yeast biofilms](#)

Romain E. Kania, Gerda E.M. Lamers, Nicole van de Laar, Marloes Dijkhuizen, Ellen Lagendijk, Patrice Tran Ba Huy, Philippe Herman, Pieter Hiemstra, Jan J. Grote, Johan Frijns & Guido V. Bloemberg

[Do oral biofilms influence the wear and corrosion behavior of titanium?](#)

*J.C.M. Souza, M. Henriques, R. Oliveira, W. Teughels,
J.-P. Celis & L.A. Rocha*

Adsorption from saliva to silica and hydroxyapatite surfaces and elution of salivary films by SDS and delmopinol

Olga Santos, Liselott Lindh, Tobias Halthur & Thomas Arnebrant

Structural changes induced by a lytic bacteriophage make ciprofloxacin effective against older biofilm of *Klebsiella pneumoniae*

Vivek Verma, Kusum Harjai & Sanjay Chhibber

***Candida albicans* biofilm formation on peptide functionalized polydimethylsiloxane**

Kristof De Prijck, Nele De Smet, Monika Rymarczyk-Machal, Gonzalez Van Driessche, Bart Devreese, Tom Coenye, Etienne Schacht & Hans J. Nelis

The effects of copper additives on the quantity and cell viability of adherent *Staphylococcus epidermidis* in silicone implants

Martin Gosau, Lukas Prantl, Martina Feldmann, Andreas Kokott, Sebastian Hahnel & Ralf Bürgers

Adhesion of microorganisms to bovine submaxillary mucin coatings: effect of coating deposition conditions

Ibraheem A. Bushnak, Fatima H. Labeed, Richard P. Sear & Joseph L. Keddie

Synthesis, characterization and in vitro activity of a surface-attached antimicrobial cationic peptide

Renxun Chen, Nerida Cole, Mark D.P. Willcox, Josephine Park, Riaz Rasul, Elizabeth Carter & Naresh Kumar

The composition of enamel salivary films is different from the ones formed on dental materials

I. E. Svendsen & L. Lindh

Biofilm formation by ica-positive and ica-negative strains of *Staphylococcus epidermidis* in vitro

Bethany Dice, P. Stoodley, Farrel Buchinsky, Nalini Metha, Garth D. Ehrlich & Fen Z. Hu

Efficacy of surface-generated nitric oxide against *Candida albicans* adhesion and biofilm formation

Benjamin J. Privett, Steven T. Nutz & Mark H. Schoenfisch
