

***Linear and Multilinear Algebra*: free access to selected 2008 articles**

Taylor & Francis are delighted to offer free online access to the following collection of 2008 articles published in *Linear and Multilinear Algebra*:

[The significance of the C-numerical range and the local C-numerical range in quantum control and quantum information](#)

Thomas Schulte-Herbrüggen, Gunther Dirr, Uwe Helmke and Steffen J. Glaser
Linear and Multilinear Algebra, 56:1-2 (2008), 3-26, DOI:
10.1080/03081080701544114

[Geometry of higher-rank numerical ranges](#)

Man-Duen Choi, Michael Giesinger, John A. Holbrook and David W. Kribs
Linear and Multilinear Algebra, 56:1-2 (2008), 53-64, DOI:
10.1080/03081080701336545

[Isolated sets of diagonals, diagonal hypergraphs, and simplices of doubly stochastic matrices](#)

Richard A. Brualdi and Jia-Yu Shao
Linear and Multilinear Algebra, 56:4 (2008), 471-480, DOI:
10.1080/03081080701437616

[Energy of digraphs](#)

Ismael Peña and Juan Rada
Linear and Multilinear Algebra, 56:5 (2008), 565-579, DOI:
10.1080/03081080701482943

[Classes of stable complex matrices defined via the theorems of Geršgorin and Lyapunov](#)

Bryan Cain, Terry D Lenker, Sivaram K. Narayan and Peter Vermeire
Linear and Multilinear Algebra, 56:6 (2008), 713-724, DOI:
10.1080/03081080701571182

In order to claim this free access, please visit www.informaworld.com and click on 'Got a Voucher?' You will then be prompted to enter the voucher code below and register on the site if you haven't previously done so. Once the voucher is accessed the articles will be available for 30 days.

Please enter VOUCHER CODE: **VSGDHFG00025AE7**

For further information on the Journal, including style guidelines for submissions, please visit www.tandf.co.uk/journals/LAMA.
