

Statistics: free access to selected 2008 articles

Taylor & Francis are delighted to offer free online access to the following collection of 2008 articles published in *Statistics*:

[Weak and strong convergence of empirical distribution functions from germ-grain processes](#)

Lothar Heinrich and Zbyněk Pawlas

Statistics, 42:1 (2008), 49-65, DOI: 10.1080/02331880701538531

[Wavelet-domain test for long-range dependence in the presence of a trend](#)

Agnieszka Jach and Piotr Kokoszka

Statistics, 42:2 (2008), 101-113, DOI: 10.1080/02331880701597222

[Maximum likelihood estimator in a multi-phase random regression model](#)

Gabriela Ciuperca and Nicolas Dapzol

Statistics, 42:4 (2008), 363-381, DOI: 10.1080/02331880801980310

[On optimal linear equivariant estimation under progressive censoring](#)

M. Burkschat

Statistics, 42:5 (2008), 383-392, DOI: 10.1080/02331880801980351

[Cross-validated estimations in the single-functional index model](#)

Ahmad Ait-Saidi, Frédéric Ferraty, Rabah Kassa and Philippe Vieu

Statistics, 42:1 (2008), 43-74, DOI: 10.1080/02331880801980377

In order to claim this free access, please visit www.informaworld.com and click on 'Got a Voucher?' You will then be prompted to enter the voucher code below and register on the site if you haven't previously done so. Once the voucher is accessed the articles will be available for 30 days.

Please enter VOUCHER CODE: **VACSTAT00015288**

For further information on the Journal, including style guidelines for submissions, please visit www.tandf.co.uk/journals/statistics.
