

Computational and Mathematical Methods in Medicine: free access to selected 2008 articles

Taylor & Francis are delighted to offer free online access to the following collection of 2008 articles published in *Computational and Mathematical Methods in Medicine*:

[Evidence that natural immunity to breast cancer and prostate cancer exists in the majority of their risk populations is predicted by a novel, inherently saturated, ordered mutation model](#)

Ivan Kramer

Computational and Mathematical Methods in Medicine, 9:1 (2008), 1-26, DOI: 10.1080/17486700701776447

[Numerical simulation of the coagulation dynamics of blood](#)

T. Bodnár and A. Sequeira

Computational and Mathematical Methods in Medicine, 9:2 (2008), 83-104, DOI: 10.1080/17486700701852784

[Modelling immune response and drug therapy in human malaria infection](#)

C. Chiyaka, W. Garira and S. Dube

Computational and Mathematical Methods in Medicine, 9:2 (2008), 143-163, DOI: 10.1080/17486700701865661

[New insights into viral architecture via affine extended symmetry groups](#)

T. Keef and R. Twarock

Computational and Mathematical Methods in Medicine, 9:3-4 (2008), 221-229, DOI: 10.1080/17486700802168163

[Computer simulations of DNA packing inside bacteriophages: Elasticity, electrostatics and entropy](#)

D. Marenduzzo

Computational and Mathematical Methods in Medicine, 9:3-4 (2008), 317-325, DOI: 10.1080/17486700802168205

In order to claim this free access, please visit www.informaworld.com and click on 'Got a Voucher?' You will then be prompted to enter the voucher code below and register on the site if you haven't previously done so. Once the voucher is accessed the articles will be available for 30 days.

Please enter VOUCHER CODE: **VFGYJDF00020F2A**

For further information on the Journal, including style guidelines for submissions, please visit www.tandf.co.uk/journals/CMMM.
