

# New Zealand Journal of Marine and Freshwater Research

the ROYAL  
SOCIETY of  
NEW ZEALAND  
TE APĀRANGI

**Aims:** The *New Zealand Journal of Marine and Freshwater Research* plays an important role in disseminating information on field-based, experimental, and theoretical research on the marine, estuarine, and freshwater biology of the region. The journal's subject matter includes ecology, taxonomy, aquaculture, genetics, biodiversity, bioinvasions, physical oceanography, limnology, hydrology, and aquatic chemistry.

**Submissions:** All submissions should be made online at the *New Zealand Journal of Marine and Freshwater Research* ScholarOne Manuscripts™ site:

<http://mc.manuscriptcentral.com/nzjm>.

Visit [www.tandfonline.com/tnzm](http://www.tandfonline.com/tnzm) and click on 'Instructions for Authors'.

## Virtual Special Issue: Aquaculture

**Annual pattern of brooding and settlement in a population of the flat oyster *Ostrea chilensis* from central New Zealand**

*S Brown, S Handley, K Michael & D Schiel*

Volume 44, Issue 4 (2010)

**Growth, feed conversion and faecal discharge of yellowtail kingfish (*Seriola lalandi*) fed three commercial diets**

*Damian Moran, Stephen J. Pether & Peter S. Lee*

Volume 43, Issue 4 (2009)

**Effects of diet on the growth, survival, and condition of sea-caged adult southern rock lobster, *Jasus edwardsii***

*Simon R. Bryars & Michael C. Geddes*

Volume 39, Issue 2 (2005)

**Invited review Lobsters: The search for knowledge continues (and why we need to know!)**

*Bruce F. Phillips*

Volume 39, Issue 2 (2005)

Taylor & Francis  
Taylor & Francis Group

## **Growth, repetitive breeding, and aquaculture potential of the spiny lobster, *Panulirus ornatus***

*T. Senthil Murugan, M. C. Remany, T. Mary Leema, JHA Dilip Kumar, J. Santhanakumar, M. Vijayakumaran, R. Venkatesan & M. Ravindran*  
Volume 39, Issue 2 (2005)

## **Aquaculture trials of the New Zealand bath-sponge *Spongia (Heterofibria) manipulatus* using lanterns**

*Michelle Kelly, Sean Handley, Mike Page, Paul Butterfield, Bruce Hartill & Shane Kelly*  
Volume 38, Issue 2 (2004)

## **Importance of different size classes of phytoplankton in Beatrix Bay, Marlborough Sounds, New Zealand, and the potential implications for the aquaculture of the mussel, *Perna canaliculus***

*Karl A. Safi & Max M. Gibbs*  
Volume 37, Issue 2 (2003)

## **Larval development of the New Zealand geoduck *Panopea zelandica* (Bivalvia: Hiatellidae)**

*P. E. Gribben & B. E. Hay*  
Volume 37, Issue 2 (2003)

## **Measuring reproductive condition in the Greenshell™ mussel *Perna canaliculus***

*S. Buchanan*  
Volume 35, Issue 5 (2001)

## **Biochemical-genetic variation in a wild and a cultured population of the greenshell mussel, *Perna canaliculus***

*J. P. A. Gardner, R. F. Eyles & A. Pande*  
Volume 30, Issue 4 (1996)

## **Induced spawning and larval rearing of snapper, *Pagrus auratus* (Pisces: Sparidae), from Australian waters**

*S. C. Battaglione & R. B. Talbot*  
Volume 26, Issue 2 (1992)

**These articles have been made free to view online for delegates of the New Zealand Aquaculture conference \*. To take advantage of this offer go to [www.tandfonline.com/tnzm](http://www.tandfonline.com/tnzm) and click on the 'News & Offers' Tab.**

\*Offer ends 30/09/2012
