

European Journal of Phycology

TOP TEN MOST DOWNLOADED PAPERS IN 2006

Number	Title	Authors	Link to
34:04	<i>Cyanobacterial toxins, exposure routes and human health</i>	Geoffrey A. Codd; Steven G. Bell; Kunimitsu Kaya; Clive J. Ward; Kenneth A. Beattie; James S. Metcalf	[Abstract]
37:01	<i>Redfield revisited: variability of C:N:P in marine microalgae and its biochemical basis</i>	Richard J. Geider; Julie La Roche	[Abstract]
34:04	<i>Marine cyanobacteria in tropical regions: diversity and ecology</i>	Lucien Hoffman	[Abstract]
41:01	<i>What is the role and nature of programmed cell death in phytoplankton ecology?</i>	Daniel J. Franklin; Corina P. D. Brussaard; John A. Berges	[Abstract]
37:03	<i>Using absorbance and fluorescence spectra to discriminate microalgae</i>	David F. Millie; Oscar M. E. Schofield; Gary J. Kirkpatrick; Geir Johnsen; Terence J. Evens	[Abstract]
34:04	<i>Mechanisms of desiccation tolerance in cyanobacteria</i>	Malcolm Potts	[Abstract]
40:04	<i>Sexual reproduction, mating system, chloroplast dynamics and abrupt cell size reduction in <i>Pseudo-nitzschia pungens</i> from the North Sea (Bacillariophyta)</i>	Victor A. Chepurnov; David G. Mann; Koen Sabbe; Katrijn Vannerum; Griet Casteleyn; Elie Verleyen; Louis Peperzak; Wim Vyverman	[Abstract]
32:03	<i>The changing irradiance environment: consequences for marine macrophyte physiology, productivity and ecology</i>	Linda A. Franklin; Rodney M. Forster	[Abstract]
32:01	<i>Effects of culture age on cryopreservation of marine microalgae</i>	J. Pedro Cañavate; Luis M. Lubián	[Abstract]
40:04	<i>A molecular re-examination of speciation in the intertidal red alga <i>Mastocarpus stellatus</i> (Gigartinales, Rhodophyta) in Europe</i>	Giuseppe C. Zuccarello; Natasha Schidlo; Lynne Mcivor; Michael D. Guiry	[Abstract]
