We are pleased to give you free online access* to the top 10 most cited papers of all time from International Journal of Remote Sensing

Canopy reflectance, photosynthesis and transpiration

by PJ Sellers, published in Volume 6, Issue 8, Pages 1335-1372, 1985

Characteristics of maximum-value composite images from temporal AVHRR data

by BN Holben, published in Volume 7, Issue 11, Pages 1417-1434, 1986

Digital change detection techniques using remotely-sensed data

by A Singh, published in Volume 10, Issue 6, Pages 989-1003, 1989

Analysis of the phenology of global vegetation using meteorological satellite data

by CO Justice, JRG Townshend, BN Holben, et al., published in Volume 6, Issue 8, Pages 1271-1318, 1985

Global land cover classification at 1 km spatial resolution using a classification tree approach

by MC Hansen, RS Defries, JRG Townshend, et al., published in Volume 21, Issue 6-7, Pages 1331-1364, 2000

Satellite remote sensing of primary production

by CJ Tucker and PJ Sellers, published in Volume 7, Issue 11, Pages 1395-1416, 1986

An improved method for detecting clear sky and cloudy radiances from AVHRR data

by RW Saunders and KT Kriebel, published in Volume 9, Issue 1, Pages 123-150, 1988

Multisensor image fusion in remote sensing: concepts, methods and applications

by C Pohl and JL van Genderen, published in Volume 19, Issue 5, Pages 823-854, 1998

Development of a global land cover characteristics database and IGBP DISCover from 1 km AVHRR data

by TR Loveland, BC Reed, JF Brown, et al., published in Volume 21, Issue 6-7, Pages 1303-1330, 2000

Linear mixing and the estimation of ground cover proportions

by JJ Settle and NA Drake, published in Volume 14, Issue 6, Pages 1159-1177, 1993
