*“If Ethnic and Racial Studies didn’t exist, it would urgently have to be invented. There is no other place to find objective articles and book reviews from a wide variety of angles on a series of topics so profoundly centred on social change in the world today”*

Professor A. H. Halsey,  
Nuffield College, Oxford

### A shared vision for your research

RACE, ETHNICITY AND NATIONALISM are at the heart of many of the major social and political issues in the present global environment. New antagonisms have emerged which require a rethinking of traditional theoretical and empirical perspectives. *Ethnic and Racial Studies* is the leading journal for the analysis of these issues throughout the world. The journal provides an interdisciplinary academic forum for the presentation of research and theoretical analysis, drawing on sociology, social policy, anthropology, political science, economics, geography, international relations, history, social psychology and cultural studies.

*Ethnic and Racial Studies* welcomes contributions from both established and younger scholars working in any of the main areas of interest. We welcome articles with an empirical focus as well as contributions at the cutting edge of theoretical debates in this field. Each issue carries reviews of the latest books on race, ethnicity and nationalism.

Visit: [www.tandf.co.uk/journals/rers](http://www.tandf.co.uk/journals/rers) for instructions on how to submit a manuscript to the journal.
