HISTORY OF PHOTOGRAPHY**

*History of Photography* is an international journal devoted exclusively to the history and criticism of the basic semantic unit of all modern media - the photograph. It covers the uses of photography from the earliest times to the present day, and is open to all critical approaches, whether historical, art historical, sociological, or anthropological. It is designed to supply the needs of curators, scholars, and critics, and to support the work of graduate students entering this field of study. It is also an indispensable repository of documentary texts, indexes, and bibliographies of all periods.

*History of Photography* is a fully peer-reviewed journal.
