

## Taylor & Francis Group Journals *iFirst* Changes for 2007

*iFirst* is an online first publication service, freely accessible to subscribers of our journals, offering readers immediate access to key research findings without the delays sometimes inherent in print production.

The following journals will be both printed and published online from 2007 using the *iFirst* model:

Advances in Physics 0001-8732 will be printed four times a year and published online eight times a year

Analytical Letters 0003-2719 will be printed six times a year and published online eighteen times a year

Animal Biotechnology 1049-5398 will be printed once a year and published online four times a year

Biocontrol Science and Technology 0958-3157 will be printed five times a year and published online ten times a year

Biofouling 0892-7014 will be printed three times a year and published online six times a year

Chemical Engineering Communications 0098-6445 will be printed four times a year and published online twelve times a year

Combustion Science and Technology 0010-2202 will be printed four times a year and published online twelve times a year

Communication Research Reports 0882-4096 will be printed once a year and published online four times a year.

Communications in Partial Differential Equations 0360-5302 will be printed four times a year and published online twelve times a year.

Communications in Statistics - Parts A & B 9999-0926 will be printed six times a year and published online twenty-two times a year

Communications in Statistics - Simulation and Computation 0361-0918 will be printed twice a year and published online six times a year

Communications in Statistics - Theory and Methods 0361-0926 will be printed four times a year and published online sixteen times a year

Drying Technology 0737-3937 will be printed four times a year and published online twelve times a year

Educational Management Abstracts 1467-582X will be printed once a year and published online twelve times a year

Educational Technology Abstracts 0266-3368 will be printed once a year and published online twelve times a year

Energy Sources, Part A: Recovery, Utilization, and Environmental Effects 1556-7036 will be printed four times a year and published online sixteen times a year

Energy Sources, Part B 1556-7249 will be printed once a year and published online four times a year

Energy Sources, Parts A and B 9999-7036 will be printed five times a year and published online twenty times a year

Food and Agricultural Immunology 0954-0105 will be printed once a year and published online four times a year

Geomicrobiology Journal 0149-0451 will be printed twice a year and published online eight times a year

Historical Biology 0891-2963 will be printed once a year and published online four times a year

International Journal of Geographical Information Science 1365-8816 will be printed five times a year and published online ten times a year

International Journal of Phytoremediation 1522-6514 will be printed twice a year and published online six times a year

International Journal of Polymeric Materials 0091-4037 will be printed four times a year and published online twelve times a year

International Journal of Remote Sensing 0143-1161 will be printed twelve times a year and published online twenty-four times a year

Journal of Nutritional & Environmental Medicine 1359-0847 will be printed once a year and published online four times a year

Journal of Environmental Science and Health Part C 1059-0501 will be printed twice a year and published online four times a year

Journal of Adhesion 0021-8464 will be printed four times a year and published online twelve times a year

Journal of Carbohydrate Chemistry 0732-8303 will be printed three times a year and published online nine times a year

Journal of Experimental Nanoscience 1745-8080 will be printed once a year and published online four times a year

Journal of Land Use Science 1747-423X will be printed once a year and published online four times a year

Journal of Liquid Chromatography & Related Technologies 1082-6076 will be printed five times a year and published online twenty times a year

Journal of Macromolecular Science, Part A 1060-1325 will be printed four times a year and published online twelve times a year

Journal of Plant Interactions 1742-9145 will be printed once a year and published online four times a year

Journal of Plant Nutrition 0190-4167 will be printed four times a year and published online twelve times a year

Main Group Chemistry 1024-1221 will be printed once a year and published online four times a year

Materials and Manufacturing Processes 1042-6914 will be printed four times a year and published online eight times a year

Multicultural Education Abstracts 0260-9770 will be printed once a year and published online twelve times a year

Petroleum Science and Technology 1091-6466 will be printed six times a year and published online twelve times a year

Polymer-Plastics Technology and Engineer 0360-2559 will be printed four times a year and published online twelve times a year

Separation and Purification Reviews 1542-2119 will be printed twice a year and published online four times a year

Shakespeare 1745-0918 will be printed once a year and published online three times a year

Sociology of Education Abstracts 0038-0415 will be printed once a year and published online twelve times a year

Soft Materials 1539-445X will be printed once a year and published online four times a year

Special Educational Needs Abstracts 0954-0822 will be printed once a year and published online twelve times a year

Synthetic Communications 0039-7911 will be printed eight times a year and published online twenty-four times a year

Technical Education and Training Abstracts 0966-162X will be printed once a year and published online twelve times a year

Toxicological & Environmental Chemistry 0277-2248 will be printed once a year and published online four times a year

Toxicology & Environmental Health Part A 1528-7394 will be printed twelve times a year and published online twenty-four times a year

Toxicology & Environmental Health Part B 1093-7404 will be printed three times a year and published online eight times a year
