- Remote Sensing and Photogrammetry Society
- The Royal Society of New Zealand
- The Textile Institute

Notable authors
Enrico Bombieri, Fields Medalist and published in Experimental Mathematics.

Kevin Warwick, multiple award winner for his work covering artificial intelligence, deep brain stimulation and medicine. His paper about “Human Misidentification in Turing Tests” is one of the most successful articles the Journal of Experimental & Theoretical Artificial Intelligence has ever published.

Professor Robert Langer, the most cited engineer in history, has published in a number of Taylor & Francis journals.
Redesigned. Refreshed. Responsive.

Taylor & Francis Online

Fully responsive interface.
Start exploring world-renowned academic research with Taylor & Francis Online.

The platform has:
• A clean, intuitive and responsive user interface
• Enhanced discoverability
• Easy-to-use search and browse functionalities

Taylor & Francis Online: Key Features

For researchers
• Intuitive and readable article layout puts the content at the center, organizes figures & data, references, citations and article statistics into easily accessible tabs, and highlights access options and the article PDF.
• Navigation menus stay in place as readers move around the site, making it easy to access key sections and tools wherever they are on the page.
• Enhanced discoverability with multi-faceted search makes finding articles and journals simpler and faster, with options to filter by subject, publication date and access options.
• Easy manuscript submission, clear information and instructions designed to meet the needs of anyone looking to publish their research.

For journal editors and learned societies
• Prominent journal branding, making it easy for readers to identify and access key journals. Journal titles and covers are elevated and journal pages offer an improved display of related and key content using a streamlined and easy to read new “card” design.
• Improved video display in HTML5 provides more impact for journals with video abstracts or video content.

For librarians
• Manage your account details with dedicated My Account area
• Link Taylor & Francis online journal content with your library catalog
• Track your institution’s usage with COUNTER-compliant statistics
• Share research using social bookmarks
• Upload your library’s logo
• Obtain RSS Feeds
• Create marked lists
• Manage alerts to publications and articles
• Set up your link resolvers. Taylor & Francis Online works with numerous link resolver vendors to ensure their knowledge bases are updated.

Contact Details

Our publishing team is truly international. With a network of 20 global offices – including Oxford, Philadelphia, Melbourne, Beijing, New Delhi, Stockholm, Cape Town and Singapore – we can provide local support around the globe. Contact your local sales representative for more information, or a personalized quote.
