Feedback and strategy: a bibliography

**Design as a value generator for clients and society**  
David M. Adamson

**Post-occupancy evaluation and Probe: a New Zealand perspective**  
George Baird

**Walking the tightrope: the Probe team’s response to BRI commentaries**  
Bill Bordass, Adrian Leaman and Robert Cohen

**Cost and value: fact and fiction**  
Bill Bordass

**Learning more from our buildings - or just forgetting less?**  
Bill Bordass

**Making feedback and post-occupancy evaluation routine 1: A portfolio of feedback techniques**  
Bill Bordass and Adrian Leaman

**Making feedback and post-occupancy evaluation routine 2: Soft landings – involving design and building teams in improving performance**  
Mark Way and Bill Bordass

**Making feedback and post-occupancy evaluation routine 3: Case studies of the use of techniques in the feedback portfolio**  
Bill Bordass and Adrian Leaman

**Occupant satisfaction in mixed-mode buildings**  
Gail Brager and Lindsay Baker

**Influence of occupants’ knowledge on comfort expectations and behaviour**  
Zosia Brown and Raymond J. Cole

**Architects need environmental feedback**  
Isabel Carmona Andreu and Tadj Oreszczyn

**Debating the future of comfort: environmental sustainability, energy consumption and the indoor environment**  
Heather Chappells and Elizabeth Shove

**Assessing building performance in use 1: the Probe process**  
Robert Cohen, Mark Standeven, Bill Bordass and Adrian Leaman

**Assessing building performance in use 2: technical performance of the Probe buildings**  
Bill Bordass, Robert Cohen, Mark Standeven and Adrian Leaman

**Assessing building performance in use 3: energy performance of the Probe buildings**  
Bill Bordass, Robert Cohen, Mark Standeven and Adrian Leaman

**Assessing building performance in use 4: the Probe occupant surveys and their implications**  
Adrian Leaman and Bill Bordass

**Assessing building performance in use 5: conclusions and implications**  
Bill Bordass, Adrian Leaman and Paul Ruyssevelt

**Time and responsibility: extending the concept of the present**  
Raymond J. Cole

**Architectural experience: the value of diversity**  
Raymond J. Cole

**Re-contextualising the notion of comfort**  
Raymond J. Cole, John Robinson, Zosia Brown and Meg O’shea

**Post-occupancy evaluation - where are you?**  
Ian Cooper

**POE in England’s Local Government context: a client perspective**  
Peter Cordy

**Probe in the UK context**  
Sir Andrew Derbyshire

**Architecture, science and feedback**  
Sir Andrew Derbyshire

**Sense and nonsense of measuring design quality**  
Geert Dewulf and Juriaan van Meel

**Developing a multicriteria approach for the measurement of sustainable performance**  
Grace K. C. Ding

**Performance-based building regulation: current situation and future needs**  
Brian Meacham, Robert Bowen, Jon Traw and Amanda Moore

**How do post-occupancy evaluation and the facilities manager meet?**  
Joanna Eley

**Design quality in buildings**  
Joanna Eley

**Adaptive behaviour and thermal comfort in Singapore’s naturally ventilated housing**  
Henry Feriadi, Nyuk Hien Wong, Sekhar Chandra and Kok Wai Cheong

**Sustainable development and post-occupancy evaluation**  
David Fisk

**Design Quality Indicator as a tool for thinking**  
David Gann, Ammon Salter and Jennifer Whyte

**Green buildings, organizational success and occupant productivity**  
Judith Heerwagen

**Collaborative knowledge work environments**  
Judith H. Heerwagen, Kevin Kampschroer, Kevin M. Powell and Vivian Loftness
Opposites attract: architectural design and academic research
T. M. de Jong, Y. J. Cuperus and D. J. M. van der Voordt

Quantifying occupant comfort: are combined indices of the indoor environment practicable?
Michael A. Humphreys

Re-examining the costs and value ratios of owning and occupying buildings
Graham Ive

The Pebble Projects: coordinated evidence-based case studies
Anjali Joseph and D. Kirk Hamilton

Building signatures correlating thermal comfort and low-energy cooling: in-use performance
D. E. Kalz, J. Pfafferott, S. Herkel and A. Wagner

The strategic workplace: development and evaluation
Kevin Kampschroer and Judith H. Heerwagen

The building stock as a research object
Niklaus Kohler and Uta Hassler

Building research and the quality-of-life
Peter Lansley

Towards an inclusive society
Peter Lansley

Adapting the homes of older people: a case study of costs and savings
Peter Lansley, Claudine McCreadie, Anthea Tinker, Susan Flanagan, Kate Goodacre and Alan Turner-Smith

Are users more tolerant of ‘green’ buildings?
Adrian Leaman and Bill Bordass

Commissioning hybrid advanced naturally ventilated buildings: a US case study
K. J. Lomas, M. J. Cook and C. A. Short

Sustainable property investment: valuing sustainable buildings through property performance assessment
Thomas Lützkendorf and David Lorenz

Alleviating asymmetric information in property markets: building performance and product quality as signals for consumers
Thomas Lützkendorf and Thorsten M. Speer

Ventilation strategies for urban housing: lessons from a PoE case study
Andrew Macintosh and Koen Steemers

Added value of good design
Sebastian Macmillan

Does the building industry suffer from collective amnesia?
Thomas A. Markus

Lessons from the Design Quality Indicator
Thomas A. Markus

False dichotomies: do current theorists understand interdisciplinarity and science?
Sheery McKay

Post-occupancy evaluation and field studies of thermal comfort
Fergus Nicol and Susan Roaf

Suggestion for new approach to overheating diagnostics
J. Fergus Nicol, Jake Hacker, Brian Spires and Hywel Davies

New standards for comfort and energy use in buildings
J. F. Nicol and M. A. Humphreys

The long march to interdisciplinary design in practice
Robin Spence, Sebastian Macmillan and Paul Kirby

Feedback, feedforward and control: post-occupancy evaluation to the rescue
Wolfgang F. E. Preiser

Understanding occupant behaviour: the use of controls in mixed-mode office buildings
Hom B. Rijal, Michael A. Humphreys and J. Fergus Nicol

Who is post-occupancy evaluation for?
Phil Roberts

Performance-based building and innovation: balancing client and industry needs
Martin Sexton and Peter Barrett

Design strategy for low-energy ventilation and cooling within an urban heat island
C. A. Short, K. J. Lomas and A. Woods

Delivery and performance of a low-energy ventilation and cooling strategy
C. Alan Short, Malcolm Cook and Kevin J. Lomas

Exploiting a hybrid environmental design strategy in a US continental climate
C. Alan Short and Kevin J. Lomas

Simulation and analysis of airborne cross-contamination routes due to the operation of building drainage and vent systems
J. A. Swaffield and L. B. Jack

The turning point for linking briefing and POE?
Françoise Szigel and Gerald Davis

Managing value and quality in design
Derek S. Thomson, Simon A. Austin, Hannah Devine-Wright and Grant R. Mills

Building as a process
D. A. Turin

Redefining environmental quality
Alex Tzonis

Towards a user-centred theory of the built environment
Jacqueline C. Vischer

Closing the loop between design and use: post-occupancy evaluation
J. Whyte and D. M. Gann

Natural ventilation in practice: linking facade design, thermal performance, occupant perception and control
Geun Young Yun, Koen Steemers and Nick Baker

Post-occupancy evaluation: benefits and barriers
Alex Zimmerman and Mark Martin
