

## What is Manuscript Central™?

Manuscript Central™ is an online system used by journal editorial offices to manage the submission and peer review of articles. It is a product of the ScholarOne® platform of Thomson Reuters (<http://scholarone.com/>).

At Taylor & Francis we have more than 500 journals using Manuscript Central™ and many more are in the process of adopting it. We have a dedicated team dealing with Manuscript Central™ and providing support to authors and editors.

### Benefits for authors

As an author, if you are submitting your manuscript to a journal that uses Manuscript Central™, you should find that the peer review process is faster and more streamlined (reviewers and editors can review the files online wherever they are in the world, so there are no postal delays, and reminders are sent automatically). You will also be kept informed at each stage in the process (you can track the status of all your manuscripts). Once your manuscript has been accepted, the transfer to the production editor at Taylor & Francis is faster, with the files and associated information going straight into CATS, our article tracking system, so that it can begin the production process.

You should find that the system is very user-friendly, and you can get help at any time via the Get Help Now section and FAQ Knowledgebase. If you are submitting your manuscript to a journal that uses Manuscript Central™, you will see a link on the Instructions for Authors page like this:

Instructions for Authors

Publication

International Journal of Science Education (IJSE) is published 15 times per year by Routledge, Taylor & Francis Group.

All submissions should be made online at the International Journal of Science Education's Manuscript Central site to facilitate rapid accessibility of your work to the readers. New users should first create an account. Once a user is logged onto the site submissions should be made via the Author Centre.

Click here for immediate access to the latest key research articles

Just click the link or enter the web address in the address field of your browser and press the Enter key on your keyboard. The journal's Log In page will open. You will need to log in or create an account. You can edit your account and change your User ID and password. If you forget your password, you can enter your email address in the Password Help field and click Go, and the system will send you an email containing instructions for resetting your password. Always follow the journal instructions carefully when submitting manuscripts.
